ANNUAL TOWN ELECTION

Security Hall

March 7, 1955

Pursuant to the foregoing warrant and the Constable's Return thereon, a Town Election was held at the time and place specified in the Warrant.

In the absence of the Moderator, the Town Clerk, Boyd H. Stewart, called the meeting to order at 7:00 A.M. and asked for nominations for a moderator to act at this meeting.

James E. Calvin moved that Samuel H. Davis be named Moderator to act at this meeting.

On motion of James E. Calvin it was voted that the nominations be closed.

On motion of James E. Calvin it was voted that the Town Clerk be instructed to cast one ballot for Samuel H. Davis for Moderator to act at this meeting.

The Town Clerk then cast one ballot for Mr. Davis to act as temporary Moderator, and declared him elected.

The warrant was partially read by the Town Clerk, when on motion of James E. Calvin, it was voted to dispense with the further reading of the warrant except the Constable's Return, which was then read by the Town Clerk.

The ballot boxes were examined by the Constable in charge and each found to be empty, and all registered 000.

The polls were declared open by Samuel H. Davis, with the following results.

	Prec. 1	Prec. 2	Prec. 3	Prec. 4	Total
Moderator for one year					
Charles P. Howard	615	889	712	928	3144

The polls were closed at 8 P.M. with the following results:

Whole number of votes cast — 3574.

The votes were declared in Open Town Meeting, sealed in ballot envelopes and transmitted to the Constable to be placed in the vault for safe keeping.

Voted to adjourn sine die, 1:30 A.M. March 8, 1955.

A true record. Attest:

BOYD H. STEWART, Town Clerk

ANNUAL TOWN MEETING

New High School Auditorium

March 21, 1955

In the absence of the Moderator, the Town Clerk, Boyd H. Stewart, called the meeting to order at 8:00 P.M. and asked for nominations for a temporary moderator to act at this meeting.

Kenneth C. Latham moved that Samuel H. Davis be elected to act as temporary moderator at this meeting.

On motion of Kenneth C. Latham it was voted that the nominations be closed.

On motion of Kenneth C. Latham it was voted that the Town Clerk be instructed to cast one ballot for Samuel H. Davis for Moderator to act at this meeting.

The Town Clerk then cast one ballot for Mr. Davis to act as temporary Moderator and declared him elected. Mr. Davis was then sworn in, by the town clerk, as temporary Moderator.

The new Town Meeting Members were asked to stand and be sworn to office by the Moderator.

The warrant was partially read by the Town Clerk when on motion of Kenneth C. Latham it was voted to dispense with the further reading of the warrant except the Constable's Return, which was then read by the Town Clerk.

ARTICLE 2. The following report was read by Robert G. Clinch.

The Planning Board respectfully reports progress in their assigned task of revising the Building Code for the Town of Reading. The Board believes that a final draft will be submitted to the Town Meeting at the regular meeting in March 1956.

On motion of Kenneth C. Latham it was voted that the report be accepted as a report of progress and placed on file.

ARTICLE 2. The following report was read by William H. Blandy.

Report of Committee Appointed to Consider the Name of the New High School

The Committee reviewed the matter of a suitable memorial for the veterans of all wars and considered two proposals:

1. That the new high school building be named the Reading Memorial High School.
2. That the auditorium in the new high school be dedicated to this purpose and named "Memorial Auditorium".

On a motion duly made and seconded the majority of the Committee voted to adopt proposal number 1, namely that the building be named the Reading Memorial High School. The Committee feel that the provision of the memorial be a matter for the town with all expenses necessary for the establishment of this memorial to come from the tax levy or other available funds. And further if this report

is accepted that a committee consisting of members of the School Committee and the Veterans Organizations work out the necessary details to provide for such memorial.

IRVING C. AUSTIN
C. NELSON BISHOP
FRED A. NYBERG
ROBERT E. TURNER
MRS. BARBARA SUMNER
RALPH E. WILSON
WILLIAM H. BLANDY, Chairman

On motion of Kenneth C. Latham it was voted that report be accepted and placed on file.

ARTICLE 2. The following report was ready by Harold L. Jones.

**Report of the Personnel Board, to the 1955
Annual Town Meeting, on Vacations and Sick Leave**

The general vacation policy in Reading is based on Section 111 of the General Laws Chapter 41, which is the only law relative to vacation now in effect in the Town. This applies directly only to Laborers, Mechanics or Craftsmen, but the rest of the Town Employees receive the same vacation allowances of two weeks except for Librarians, who, by custom receive three weeks.

Many towns seem to have liberalized their vacation allowance to three weeks after certain periods of service. Comparatively few Towns seem to have accepted Section 111g which provides for three weeks after five years service and four weeks after ten years service.

The sick leave policy seems to be completely informal in many Towns as it is in Reading where each Department makes its own policy as need arises. In Towns where a formal policy is indicated no completely consistent pattern seems evident.

Our Town Counsel has ruled that the enabling Legislation under which our Wage and Salary plan was established does not include the right to regulate vacations or Sick leave for Town Employees and that we could not legally include them in our regulations. In view of this and the salary increases proposed this year the Personnel Board recommends that no action be taken at the present time.

We do feel that some liberalization of the Vacation allowance is indicated for the near future although we would not be in favor of accepting Section 111g. We also believe that some means of formalizing a uniform Sick leave policy for the Town is desirable. Further research on both problems is recommended.

(Signed)

JAMES E. CALVIN
WILLIAM F. MURPHY
HAROLD L. JONES, Chairman

On motion of Kenneth C. Latham it was voted that report be accepted and placed on file.

ARTICLE 2. The following report was read by Frank J. Zeo.

A Report on the Problem of Additional Schoolhouse Facilities
(in book form)
attached herewith

On motion of Kenneth C. Latham it was voted to accept report with thanks and place on file.

ARTICLE 2. The following report was read by William H. Dolben, Chairman.

Report of the Birch Meadow Study Committee
(in book form)
attached herewith

On motion of Kenneth C. Latham it was voted that report be accepted with thanks and placed on file.

On motion of Kenneth C. Latham it was voted to place Article 2 on the table.

On motion of Kenneth C. Latham it was voted to take up Article 3.

ARTICLE 3. On motion of Kenneth C. Latham it was voted that the Board of Selectmen be and they hereby are instructed to lease upon such terms and conditions as they may determine quarters for the use of a unit of the State Militia, provided there is available space in any municipally owned building.

ARTICLE 3. On motion of Frank C. Sawyer it was voted that there be and hereby is established a Special Committee composed of eight members for the purpose of making a comprehensive study of the fluoridation of the Town of Reading public water supply, for the reduction of tooth decay; such Committee to consist of one member from the Board of Public Works, one from the Board of Health, one from the School Committee, one from the Finance Committee, such members to be appointed by their respective Boards and Committees, and four Town Meeting Members at large to be appointed by the Board of Selectmen, one from each precinct, such Committee to report at a subsequent Town Meeting to be held not later than the Annual Town Meeting of March 1956.

On motion of Kenneth C. Latham it was voted to place Article 3 on the table.

On motion of Kenneth C. Latham it was voted to take up Article 24.

ARTICLE 24. On motion of Harold L. Jones it was voted that the Schedule of Minimum and Maximum salaries to be paid to employees in the positions included in the Employees Classification Plan be and the same hereby is amended by striking out the hourly and weekly minimum and maximums as appearing therein and substituting in place thereof under the Job Classifications the following new hourly and weekly minimum and maximum rates:

Kilgore, Jr. it was voted that the sum of Sixty-two Hundred Dollars (\$6,200.) be transferred from Surplus Revenue and appropriated for the installation of a skating area in Birch Meadow upon the parcel of Land No. 2 as shown on plan dated June 1930 filed in the Town Clerk's Office and the Town Accountant be and he hereby is authorized and instructed to transfer said sum to carry out the purpose of this vote.

ARTICLE 37. On motion of Kenneth R. Johnson it was voted that the provisions of Sections forty-two A, to forty-two F, inclusive, of Chapter 40 of the General Laws, being a law relative to the Collection of Water Rates and imposing Liens therefor upon real estate, be and the same hereby are accepted.

ARTICLE 38. On motion of Kenneth R. Johnson it was voted that the sum of Two Thousand Five Hundred Dollars (\$2,500.) be raised from the Tax Levy and appropriated for the payment of land damages caused by the relocation of the Westerly side line of South Street.

ARTICLE 39. On motion of Kenneth R. Johnson it was voted that the sum of One Thousand Two Hundred Dollars (\$1,200.) be raised from the Tax Levy and appropriated for the purpose of making specific repairs to the Mineral Street Bridge and approaches thereto, said appropriation to be apportioned \$900.00 for Salaries and \$300.00 for Expenses.

ARTICLE 40. On motion of Kenneth R. Johnson it was voted that the Town accept the report of the Board of Public Works on the relocating or altering of the location lines of a portion of Lincoln Street and a portion of Arlington Street at the Northerly terminal of said streets and adopt the recommendations contained therein.

**Report of the Board of Public Works on the Relocation or
Alteration of the Corner of Arlington Street and Lincoln Street**

The Board of Public Works of the Town of Reading, having determined and adjudged that common convenience and necessity require that the public highways be laid out, relocated or altered as and in the location hereinafter described, having complied with all requirements of law relating to notice to owners of land thereof, and of a hearing thereon, and having met at the time and place appointed for such hearing, and then and there heard all persons present who desired to be heard, having laid out, relocated or altered as public highways for the use of the Town, the corner of Arlington Street and Lincoln Street. The boundaries and measurements of said public highways as so laid out, relocated or altered are as follows:

Beginning at a stone bound located at the intersection of the Easterly side line of said Arlington Street and the Southerly side line of Woburn Street;

Thence N. $70^{\circ}42'35''$ E., along said Southerly side line of Woburn Street, a distance of 13.5 feet to an angle point at the intersection of the said Southerly side line of Woburn Street and the South-Westerly side line of said Lincoln Street;

Thence S. $48^{\circ}09'00''$ E. by the said South-Westerly side line of Lincoln Street, a distance of 46.67 feet to a point of curve;

Thence running South-Westerly by a curved line on a radius of 19.00 feet, a length of 50.26 feet through lands of John F. Sawyer and Louise H. Sawyer to a point of tangent on the said Easterly side line of Arlington Street;

Thence N. $18^{\circ}34'00''$ W. along said Easterly side line of Arlington Street a distance of 49.95 feet to the point of beginning of this description.

The approximate area taken is seven hundred and seventy-nine (779) square feet.

The above described lines being more fully shown on a Plan entitled "Relocation and Alteration of the corner of Arlington and Lincoln Streets, Reading, Mass.", dated February, 1955, Board of Public Works, James T. Putnam, Supt., said Plan being a part of this description.

We determine that no damages will be sustained by any person or persons in their property by reason of the taking to be made for this improvement.

No betterments are to be assessed for this improvement.

This laying out, relocation or alteration so made by us, we hereby report to the Town for acceptance and recommend that when this report is accepted and adopted by the Town, that said public highways shall thereafter be laid out, relocated or altered in accordance with said Plan.

(Signed)

WALTER S. HOPKINS, JR.

DOMENICK ZANNI, JR.

KENNETH R. JOHNSON

Members of the Board of Public Works,
Town of Reading

ARTICLE 41. On motion of Kenneth R. Johnson it was voted that the Town accept the report of the Board of Public Works on the laying out of a Private Way known as Birch Meadow Drive and adopt the recommendations contained therein, and that the sum of Thirty-four Thousand One Hundred Dollars (\$34,100.) be appropriated for the original construction of Birch Meadow Drive, from Main Street to Oakland Road being an access road to the new High School including the cost of bituminous macadam or other permanent pavement of similar lasting character and for the sidewalks to be laid at the time of said construction, and to meet said appropriation the sum of Twenty-five Thousand Eight Hundred Forty-nine Dollars (\$25,849.) be transferred from the unexpended balance of the High School Access Roads Account and the sum of Eight Thousand Two Hundred Fifty-one Dollars (\$8,251.) be appropriated by transferring said sum from Surplus Revenue and the Town Accountant be and he hereby is authorized and instructed to transfer said sum to said account to carry out the purpose of this voted

**Report of the Board of Public Works on the Laying Out of
Birch Meadow Drive**

The Board of Public Works of the Town of Reading having determined and adjudged that common convenience and necessity require the laying out of a Town Way under the provisions of law authorizing the assessment of betterments, substantially in the location hereinafter described, having complied with all requirements of law relating to notice to the owners of land thereof and of a hearing thereon, and having met at the time and place appointed for such hearing and then and there heard all persons present who desired to be heard, have laid out as a Town Way for the use of the Town running North-Westerly from a State Highway now known as Main Street to a public town way known as Oakland Road as accepted March 23, 1953, substantially as and in the location of the private way known as Birch Meadow Drive, the boundaries and measurements of said way as so laid out are as follows:

Beginning at a point on the Westerly side line of said Main Street, said point being N. 0°-03" - 10" E., a distance of 225.39 feet measured along the said Westerly side line of Main Street from a Massachusetts Highway stone bound set at an angle point, Station 125 plus 38.20 Left, as defined by the alteration and layout as a State Highway of said Main Street by the Massachusetts Department of Public Works, March 5, 1929;

Thence by a curved line to the Left, running in a North-Westerly direction, having a radius of 30.00 feet by lands of the Inhabitants of the Town of Reading, a length of 47.12 feet to a point of curve;

Thence by a curved line to the Right, running in a North-Westerly direction, having a radius of 708.00 feet by lands of said Inhabitants of the Town of Reading, a length of 388.06 feet to a point of tangent;

Thence N. 58°-32'-35" W. still by lands of said Inhabitants of the Town of Reading, a distance of 230.81 feet to a point of curve;

Thence by a curved line to the Left, running in a South-Westerly direction, having a radius of 60.00 feet, still by lands of said Inhabitants of the Town of Reading, and by a private way known as Waverly Road, a length of 94.57 feet to a point of tangent;

Thence S. 31°-9'-05" W. across said Waverly (Private) Road a distance of 30.38 feet to the North-Easterly terminus of Oakland Road as accepted March 23, 1953;

Thence N. 58°-15'-45" W. by said North-Easterly terminus of Oakland Road a distance of 60.01 feet to an angle point;

Thence N. 31°-09'-05" E., still by lands of said Inhabitants of the Town of Reading, a distance of 40.73 feet to a point of curve;

Thence by a curved line to the Left, running in a North-Westerly direction, having a radius of 60.00 feet, still by lands of said Inhabitants of the Town of Reading, a length of 93.93 feet to a point; said point being the North-Westerly terminus of the South-Westerly side line of this lay-out;

Thence N. 31°-27'-25" E., by lands of said Inhabitants of the Town of Reading, a distance of 50.00 feet to a point; said point being the North-Westerly terminus of the North-Easterly side line of this layout;

Thence S. 58°-32'-35" E., by lands of said Inhabitants of the Town of Reading a distance of 410.51 feet to a point of curve;

Thence by a curved line to the Left, running in a South-Easterly direction, having a radius of 648.00 feet by lands of said Inhabitants of the Town of Reading, a length of 355.17 feet to a point of curve;

Thence by a curved line to the Left, running in a North-Easterly direction, having a radius of 30.00 feet still by lands of said Inhabitants of the Town of Reading, a length of 47.12 feet to a point on the said Westerly side line of Main Street;

Thence S. 0°-03'-10" W. along said Westerly side line of Main Street, a distance of 120.00 feet to the point of beginning of this description.

The above described lines being more fully shown on a Plan entitled "Birch Meadow Drive, Reading, Mass.", dated February 25, 1955, Board of Public Works, James T. Putnam, Supt., said Plan being a part of this description.

We determine that no damages will be sustained by any person or persons in their property by reason of the taking to be made for this improvement.

This laying out so made by us we hereby report to the Town for acceptance and recommend that said way shall thereafter be known as a Public Town Way and named Birch Meadow Drive.

WALTER S. HOPKINS, JR.

KENNETH R. JOHNSON

Members of the Board of Public Works
Town of Reading

On motion of Kenneth C. Latham it was voted to take up Article 55.

ARTICLE 55. On motion of Alfred H. Dolben it was voted that the subject matter of Article 55 be referred to the Municipal Light Board, and that said Board be, and it hereby is, authorized to install such additional street lights, as in its judgment are required, and to make such changes in the size, type, and location of existing street lights, as it may deem advisable, the expense of same to be paid from the income of the plant.

On motion of Kenneth C. Latham it was voted to take up Article 56.

ARTICLE 56. On motion of Alfred H. Dolben it was voted that the Municipal Light Board be authorized and empowered to extend and enlarge the Municipal Light Plant by installing necessary additional power lines from the Ash Street Plant to the present substations in the towns of North Reading and Wilmington, and by installing such other appliances and equipment which may be necessary in connection therewith and that there be raised and appropriated for the above purpose the sum of One Hundred Twenty-five Thousand Dollars (\$125,000) in addition to the amount which may be available in the Depreciation Fund to be expended by the Manager of the Municipal Lighting Department under the direction and control of the Municipal Light Board for the above purpose; and that the Treasurer be and he hereby is authorized and directed with the approval of the Selectmen to borrow said sum of \$125,000 and to issue therefor bonds or notes of the Town, such bonds or notes to be payable in accordance with the Provisions of Chapter 44 of the General Laws, so that the whole loan shall be payable in not more than twenty years from the date of the first bond or note or at such earlier time as the Treasurer and the Selectmen may determine; and said bonds or notes shall be signed by the Treasurer and countersigned by the Selectmen.

BOYD H. STEWART, Town Clerk

ADJOURNED ANNUAL TOWN MEETING

New High School Auditorium

April 11, 1955

The meeting was called to order by the Moderator, Charles P. Howard, at 8:00 P.M.

On motion of Kenneth C. Latham it was voted to take Article 3 from the table.

ARTICLE 3. On motion of Robert G. Clinch it was voted that the Planning Board of the town of Reading as constituted on January 19, 1955 be and the same is hereby authorized and instructed to employ counsel, other than the Town Counsel, for the purpose of defending an appeal filed by one Eva Cole of Reading, to the Supreme Judicial Court of Massachusetts, of a decree entered in the Superior Court held in

Middlesex County on January 19, 1955, Equity Number 18422, and to defray the expenses of said counsel in relation to said appeal out of funds raised and appropriated by vote passed at an adjourned town meeting held on March 28, 1955 under Article 23.

ARTICLE 3. On motion of Kenneth C. Latham it was voted that the following be chosen to serve as Measurers of Lumber for the ensuing year:

Harold B. Currell
Fred F. Smith
Maurice H. Donegan

and that the following be chosen to serve as Measurers of Wood and Bark:

Harold B. Currell
Thomas E. Brogan
Maurice H. Donegan

ARTICLE 3. On motion of Edward C. Emslie it was voted that the Finance Committee be, and hereby is, instructed with the assistance of the Town Accountant and Board of Public Works, to provide in its Annual Report to the Town Meeting for a reporting of all appropriations and expenditures for Sidewalks and for the Water Department under the respective headings of Construction and Maintenance, the practice now followed in respect to Sewers and Drainage.

On motion of Kenneth C. Latham it was voted that Article 3 be laid on the table.

ARTICLE 42. On motion of Kenneth R. Johnson it was voted that the Town accept the report of the Board of Public Works on the laying out of a Private Way known as Glenmere Circle and adopt the recommendations contained therein, and that the sum of Eight Thousand Five Hundred Eighteen and Fifty one hundredths (\$8,518.50) Dollars be appropriated from the unexpended balances of the following accounts:

\$671.01 from Evergreen Road Betterment Salaries
422.14 from Evergreen Road Betterment Expenses
145.03 from Tennyson Road Betterment Salaries
103.80 from Tennyson Road Betterment Expenses
29.63 from Wentworth Road Betterment Salaries
290.02 from Wentworth Road Betterment Expenses
783.64 from Woodland Street Betterment Salaries
425.02 from Woodland Street Betterment Expenses
2.04 from Resurfacing Streets Account Expenses

and that the sum of \$5,646.17 be transferred from Surplus Revenue and that said sums shall be appropriated and transferred for the laying out and construction of said way, said sum to be apportioned as follows: \$4,618.50 for Salaries and \$3,900.00 for Expenses, and that the Town Accountant be and he hereby is authorized and instructed to transfer said sums to carry out the purpose of this vote.

Report of the Board of Public Works on the Laying Out of Glenmere Circle

The Board of Public Works of the Town of Reading having determined and adjudged that common convenience and necessity require the laying out of a Town Way under the provisions of law authorizing the assessment of betterments, substantially in the location hereinafter described, having complied with all requirements of law relating to notice to the owners of land thereof and of a hearing thereon, and having met at the time and place appointed for such hearing and then and there heard all persons present who desired to be heard, have laid out as a Town Way for the use of the Town running South-easterly and South-westerly from a Town Way now known as Winslow Road as accepted March 27, 1950, to the North-Easterly terminus of a Town Way known as Glenmere Circle as accepted March 14, 1952, substantially as and in the location of the private way known as Glenmere Circle, the Boundaries and measurements of said way as so laid out are as follows:

Beginning at a point on the Southerly side line of said public town way known as Winslow Road as accepted March 27, 1950; said point being N. $71^{\circ}-30'-50''$ E., a distance of 208.42 feet measured along the said Southerly side line of Winslow Road from a stone bound set at the North-Westerly terminus of a curved line having a radius of 20.00 feet and a total length of 31.12 feet, to point of intersection of said Southerly side line of Winslow Road and the Westerly side line of West Street;

Thence by a curved line to the left, running in a South-Westerly direction, by lands of Henry A. Brodecki and Anna L. Brodecki, having a radius of 20.00 feet a length of 31.42 feet to a point of tangent;

Thence S. $180^{\circ}-29'-10''$ E. still by lands of said Henry A. Brodecki and Anna L. Brodecki and by lands of Edward J. Sullivan, Jr., Roy O. Beck and Mary F. Beck, John E. Weed and Virginia B. Weed, and lands of George Roman and Ella Roman a distance of 429.52 feet to an angle point at lands of M. Elwyn Walker and Ruth A. Walker;

Thence S. $71^{\circ}-30'-50''$ W., by lands of said M. Elwyn Walker et ux and by lands of Russell C. Copley, Stanton J. Dempsey and Katherine E. Dempsey, Robert E. Webb and Virginia P. Webb an unnumbered parcel of land shown as a future street, lands of Elmer B. Lincoln and Doris Lincoln and lands of Donald T. Teel a distance of 509.00 feet to a point, said point being the Westerly terminus of the Southerly side line of this layout; and at the North-Easterly terminus of the public town way known as Glenmere Circle as accepted March 14, 1952;

Thence N. $18^{\circ}-29'-10''$ W., by the North-Easterly terminus of said public town way known as Glenmere Circle as accepted March 14, 1952, a distance of 40.00 feet to a point; said point being at the Westerly terminus on the Northerly side line of this layout;

Thence N. $71^{\circ}-30'-50''$ E., by lands of William L. Gordon and Grace E. Gordon, Carl C. O'Brien and Elizabeth C. O'Brien, Howard T. Winter, Friend Lumber Company, and lands of Walter J. Smith and Josephine Smith, a distance of 450.00 feet to a point of curve;

Thence by a curved line to the left, running in a North-Easterly direction, having a radius of 20.00 feet, still by lands of said Walter J. Smith et ux, a length of 31.42 feet to a point of tangent;

Thence N. 18°-29'-10" W., still by lands of said Walter J. Smith et ux, and lands of George E. Earl and Helen D. Earl, George R. Barris and Lottie T. Barris, and lands of Raymond I. Parker and Doris A. Parker a distance of 369.92 feet to a point of curve;

Thence by a curved line to the left, running in a North-Westerly direction, having a radius of 20.00 feet, still by lands of said Raymond I. Parker, et ux a length of 31.42 feet to a point of tangent at the said Southerly side line of Winslow Road;

Thence N. 71°-30'-50" E., along said Southerly side line of Winslow Road, a distance of 80.00 feet to the point of beginning of this description.

The above described lines being more fully shown on a Plan entitled "Glenmere Circle (Extension), Reading, Mass.," dated January 1955, Board of Public Works, James T. Putnam, Superintendent, said Plan being a part of this description.

We determine that no damages will be sustained by any person or persons in their property by reason of the taking to be made for this improvement. All acts in connection with said laying out are done under the provisions of law authorizing the assessment of betterments, and betterments are to be assessed therefore.

This laying out so made by us we hereby report to the Town for acceptance and recommend that said way shall thereafter be known as a Public Town Way and named Glenmere Circle, and that the sum of Eight Thousand Five Hundred Eighteen (\$8,518.00) Dollars be raised and appropriated for said laying out and for the construction of said way.

Town of Reading

Report of the Board of Public Works on the Laying Out of Lothrop Road

The Board of Public Works of the Town of Reading having determined and adjudged that common convenience and necessity requires the laying out of a Town Way under the provisions of law authorizing the assessment of betterments, substantially in the location hereinafter described, having complied with all requirements of law relating to notice to the owners of land thereof and of a hearing thereon, and having met at the time and place appointed for such hearing and then and there heard all persons present who desired to be heard, have laid out as a Town Way for use of the Town running from a Town Way known as County Road as accepted March 19, 1934 in Westerly, North-erly and Easterly directions to said Town Way known as County Road, substantially as and in the location of the private way known as Lothrop Road, the boundaries and measurements of said way as so laid out are as follows:

Beginning at a point on the Westerly side line of said public town way known as County Road as accepted March 19, 1934, said point being N. $09^{\circ}17'40''$ W., a distance of 6.41 feet measured along the said Westerly side line of County Road from the Southerly terminus of the said Westerly side line of County Road;

Thence by a curved line to the Left, running in a North-Westerly direction, having a radius of 25.00 feet, by lands of Roy L. Battis and Gladys H. Battis, a length of 38.51 feet to a point of tangent;

Thence S. $82^{\circ}27'20''$ W., still by lands of said Roy L. Battis et ux, and by lands of Arthur Raedle Nelson and Anna Marion Nelson, Leslie H. York and Irene M. York and by a private way known as Jere Road, a distance of 361.85 feet to an angle point;

Thence N. $31^{\circ}22'00''$ W., by said Jere (Private) Road and by lands of Henry O. Swain, Jr., and Ruth A. Swain and lands of George H. Varney and Bessie F. Varney a distance of 162.03 feet to a point of curve;

Thence by a curved line to the Right, running in a North-Westerly direction, having a radius of 556.00 feet, still by land of said George H. Varney et ux, and by lands of Wayne E. Whittemore and Alice W. Whittemore and lands of Ralph A. Crosby Trustee, a length of 215.56 feet to a point of tangent;

Thence N. $08^{\circ}54'40''$ W., by said lands of Ralph A. Crosby Trustee a distance of 42.56 feet to a point of curve;

Thence by a curved line to the Right, running in a North-Easterly direction, having a radius of 138.80 feet, still by lands of said Ralph A. Crosby Trustee and lands of Herman W. Holmberg and Janet A. Holmberg and by a parcel of land marked, "40 feet Right of Way," and lands of Avis G. Sargent, Adelle L. Sargent and Grace E. Sargent, a length of 218.71 feet to a point of tangent;

Thence N. $81^{\circ}22'20''$ W., still by lands of said Avis G. Sargent et al, and by lands of Bertil R. Swanberg and Thelma E. Swanberg and by lands of Edna M. Kemp and Florence H. Sanborn, a distance of 136.76 feet to a point of curve;

Thence by a curved line to the Left, running in a North-Easterly direction, having a radius of 251.94 feet, still by lands of said Edna M. Kemp and Florence H. Sanborn and by lands of Alfred E. Murphy and Barbara C. Murphy, a length of 98.72 feet to a point of tangent;

Thence N. $58^{\circ}55'20''$ E., by said lands of Alfred E. Murphy and Barbara C. Murphy a distance of 47.50 feet to a point of curve;

Thence by a curved line to the Left, running in a North-Easterly direction, having a radius of 25.00 feet, still by lands of said Alfred E. Murphy et ux, a length of 39.27 feet to a point on the said Westerly side line of County Road;

Thence S. $31^{\circ}04'40''$ E., along said Westerly side line of County Road a distance of 41.00 feet to a point of curve;

Thence by a curved line to the Right, running in a South-Easterly direction having a radius of 560.00 feet still along said Westerly side line of County Road, a length of 61.21 feet to a point on said curve;

Thence by a curved line to the Left, running in a South-Westerly direction, having a radius of 24.42 feet, by lands of Ralph S. Sulmonetti and Phyllis A. Sulmonetti, a length of 41.03 feet to a point of tangent;

Thence S. $58^{\circ}55'20''$ W., still by lands of said Ralph S. Sulmonetti et ux a distance of 44.89 feet to a point of curve;

Thence by a curved line to the Right, running in a Westerly direction, having a radius of 301.94 feet, still by lands of said Ralph S. Sulmonetti et ux, and by lands of Kenneth L. Snow and Beverly P. Snow a length of 118.31 feet to a point of tangent;

Thence S. $81^{\circ}22'20''$ W., still by lands of said Kenneth L. Snow et ux and by lands of F. Clarabell Jackson and Wilma E. Buck and by lands of Harold D. Guy and Betty E. Guy a distance of 136.76 feet to a point of curve;

Thence by a curved line to the Left, running in a South-Westerly direction, having a radius of 88.80 feet, still by lands of said Harold D. Guy et ux a length of 139.93 feet to a point of tangent;

Thence S. $08^{\circ}54'40''$ E., still by lands of said Harold D. Guy et ux a length of 42.56 feet to a point of curve;

Thence by a curved line to the Left, running in a South-Easterly direction, having a radius of 500.00 feet, still by lands of said Harold D. Guy et ux and by lands of Louis Davis and Priscilla T. Davis and by lands of Robert E. Culver and Elizabeth L. Culver a distance of 195.96 feet to a point of tangent;

Thence S. $31^{\circ}22'00''$ E., by lands of said Robert E. Culver et ux a distance of 44.75 feet to a point of curve;

Thence by a curved line to the Left, running in a South-easterly direction, having a radius of 130.00 feet by land of said Robert E. Culver et ux and by lands of Chester C. Pease, Jr., and Elizabeth B. Pease a length of 150.15 feet to a point of tangent;

Thence N. 82°-27'-20" E., still by lands of said Chester C. Pease, Jr., et ux and by lands of Clifford W. Libby and Charlotte A. Libby and by lands of William W. Kimball, Jr., and Eleanor C. Kimball, a distance of 241.51 feet to a point of tangent;

Thence by a curved line to the Left, running in a North-Easterly direction, having a radius of 25.00 feet, still by lands of said William W. Kimball, Jr., et ux a length of 40.03 feet to a point on the said Westerly side line of County Road;

Thence S. 09°-17'-40" E., by said Westerly side line of County Road a distance of 100.05 feet to the point of beginning of this description.

The above described lines being more fully shown on a Plan entitled, "Lothrop Road, Reading, Mass.," dated January, 1955, Board of Public Works, James T. Putnam, Supt., said Plan being a part of this description.

We determine that no damage will be sustained by any person or persons in their property by reason of the taking to be made for this improvement. All acts in connection with said laying out are done under the provisions of law authorizing the assessment of betterments, and betterments are to be assessed therefore.

This laying out so made by us we hereby report to the Town for acceptance and recommend that said way shall thereafter be known as a Public Town Way and named Lothrop Road, and that the sum of Twelve Thousand, Six Hundred Six, (\$12,606.00) Dollars, be raised and appropriated for said laying out and for the construction of said way.

Town of Reading

Report of the Board of Public Works on the Laying Out of Batchelder Road

The Board of Public Works of the Town of Reading having determined and adjudged that common convenience and necessity require the laying out of a Town Way under the provisions of law authorizing the assessments of betterments, substantially in the location hereinafter described, having complied with all requirements of law relating to notice to the owners of land thereof and of a hearing thereon, and having met at the time and place appointed for such hearing and then and there heard all persons present who desired to be heard, have

laid out as a Town Way for the use of the Town running Westerly and Northerly from a County Way known as Haverhill Street as ordered by the County Commissioners in 1933, to a dead end, substantially as and in the location of the private way known as Batchelder Road, the boundaries and measurements of said way as so laid out are as follows:

Beginning at a point on the Westerly side line of said Haverhill Street, said point being located in a Northerly direction along the said Westerly curved side line of Haverhill Street, having a radius of 1356.35 feet, a length of 323.95 feet from a drill hole in a County stone bound set at a point of curve;

Thence by a curved line to the Left, running in a North-Westerly direction, by lands of Norman J. Atkinson and Carol G. Atkinson, having a radius of 60.00 feet, a length of 103.96 feet to a point of tangent;

Thence N. 68°-58'-10" W., still by lands of said Norman J. Atkinson and Carol G. Atkinson a distance of 73.37 feet to a point of curve;

Thence by a curved line to the Right, running in a North-Westerly direction, having a radius of 100.00 feet by lands of Melvin C. Sverker and Violet L. Sverker and by lands of Robert E. Marchand and Louise Marchand a distance of 142.04 feet to a point of curve;

Thence N. 12°-24'-50" E., still by lands of said Robert E. Marchand and Louise Marchand and by lands of Alban G. Sheehan and Mary C. Sheehan, Peter Govostes and Alice Govostes, Anthony J. DiIeso and Francis M. DiIeso and by lands of Charles Laquidara Jr. and Joan L. Laquidara a distance of 373.87 feet to a point of curve;

Thence by a curved line to the Right running in a North-Easterly direction, having a radius of 2040.00 feet by lands of said Charles Laquidara Jr. and Joan L. Laquidara a length of 79.35 feet to a point, said point being at the Northerly terminus of the Westerly side line of this layout;

Thence S. 75°-21'-29" E., by the Northerly terminus of this layout to lands of Oscar W. Batchelder and Dorothy J. Batchelder a distance of 40.00 feet to a point, said point being at the Northerly terminus of the Easterly side line of this layout;

Thence by a curved line to the Left, running in a Southerly direction by lands of said Oscar W. Batchelder and Dorothy J. Batchelder and by lands of Walter Vetromile and Lillian G. Vetromile, having a radius of 2000.00 feet, a length of 77.79 feet to a point of tangent;

Thence S. 12°-24'-50" W., still by lands of said Walter Vetromile and Lillian G. Vetromile, and by lands of Bradley S. Stevens and Helen A. Stevens, Domenic C. Scavangelli and Mary C. Scavangelli and lands of Alvin L. MacLeod and Mary E. MacLeod a distance of 373.87 feet to a point of curve;

Thence by a curved line to the Left, running in a South-Easterly direction, having a radius of 60.00 feet, still by lands of Alvin L. MacLeod and Mary E. MacLeod, a length of 85.22 feet to a point of tangent;

Thence S. 68°-58'-10" E., still by lands of said Alvin L. MacLeod and Mary E. MacLeod and by lands of Joseph E. Callahan and Anna H. Callahan a distance of 108.32 feet to a point of curve;

Thence by a curved line to the Left, running in a North-Easterly direction, having a radius of 60.00 feet, by lands of said Joseph E. Callahan and Anna H. Callahan, a length of 79.57 feet to a point of tangent at the said Westerly side line of Haverhill St.;

Thence S. 35°-02'-30" W., along said Westerly side line of Haverhill Street, a distance of 46.87 feet to a point of curve;

Thence by a curved line to the Left running in a Southerly direction, still along the said Westerly side line of Haverhill Street, having a radius of 1356.35 feet, a length of 112.02 feet to the point of beginning of this description.

The above described lines being more fully shown on a Plan entitled "Batchelder Road, Reading, Mass." dated January 1955, Board of Public Works, James T. Putnam, Supt.

We determine that no damages will be sustained by any person or persons in their property by reason of the taking to be made for this improvement. All acts in connection with said laying out are done under the provisions of law authorizing the assessment of betterments, and betterments are to be assessed therefore.

This laying out so made by us we hereby report to the Town for acceptance and recommend that said way shall thereafter be known as a Public Town Way and named Batchelder Road, and that the sum of Eight Thousand Four Hundred Sixty (\$8,460.00) Dollars be raised and appropriated for said laying out and for the construction of said way.

Town of Reading

ARTICLE 46. On motion of Walter S. Hopkins, Jr. it was voted that the Town accept the report of the Board of Public Works on the laying out of a Private way known as Bolton Street and adopt the recommendations contained therein, and that the sum of Five Thousand Seven Hundred Ninety-five and Twenty-one one hundredths (\$5,795.21) Dollars be transferred from Surplus Revenue and appropriated for the laying out and construction of said way, said sum to be apportioned as follows:

Three Thousand One Hundred Ninety-five and Twenty-one one hundredths (\$3,195.21) Dollars for Salaries and Two Thousand Six Hundred (\$2,600.00) Dollars for expenses, and that the Town Accountant be and he hereby is authorized and instructed to transfer said sum to carry out the purpose of this vote.

COMMONWEALTH OF MASSACHUSETTS

Middlesex, ss.

Town of Reading

Report of the Board of Public Works on the Laying Out of Bolton Street

The Board of Public Works of the Town of Reading having determined and adjudged that common convenience and necessity require the laying out of a Town Way under the provisions of law authorizing the assessment of betterments, substantially in the location hereinafter described, having complied with all requirements of law relating to notice to the owner of land thereof and of a hearing thereon, and having met at the time and place appointed for such hearing and then and there heard all persons present who desired to be heard, have laid out as a Town Way for use of the Town running South-Easterly from a private way now known as Goodall-Sanford Road to a dead end, substantially as and in the location of the private way known as Bolton Street, the boundaries and measurements of said way as so laid out are as follows:

Beginning at a point on the North-Easterly side line of said private way known as Goodall-Sanford Road, said point being located by three courses respectively S. $140^{\circ}54'40''$ W., a distance of 255.00 feet measured along the Easterly side line of Main Street, S. $17^{\circ}03'55''$ E., a distance of 88.30 feet measured along the North-Easterly side line of Ash Street and S. $48^{\circ}09'10''$ E., a distance of 25.66 feet measured along the said North-Easterly side line of Goodall-Sanford (Private) Road, from a stone bound set at the intersection of the said Easterly side line of Main Street and the Southerly side line of Washington Street;

Thence by a curved line to the Left, having a radius of 40.00 feet, running in a South-Easterly direction by lands of Frederick M. Bowker and Natalie R. Bowker, a length of 24.60 feet to a point of tangent;

Thence S. $83^{\circ}24'10''$ E., still by lands of said Frederick M. Bowker and Natalie M. Bowker and by lands of Muriel Bolton, et al., Fred Granelli and Lena Granelli, Fred Granelli, Jr., and Frances P. Granelli, Quinn W. Jordan and Mary Ann Jordan and by lands of Charles H. Castor and Mary E. Castor, a distance of 564.76 feet to a point, said point being the Easterly terminus of the Northerly side line of this layout;

Thence S. $06^{\circ}35'50''$ W., by the Easterly terminus of this layout a distance of 40.00 feet to a point at lands of Goodall-Sanford, Inc.;

Thence N. $83^{\circ}24'10''$ W., by lands of said Goodall-Sanford, Inc., and by lands of Myron E. Wing and Charles H. Strout, Reading Lumber Company, and by lands of Simon D. Hubbard and Mary D. Hubbard, a distance of 489.32 feet to a point of curve;

Thence by a curved line to the Left running in a South-Westerly direction having a radius of 10.00 feet, still by lands of said Simon D. Hubbard and Mary D. Hubbard, a length of 25.56 feet to a point of tangent at the said North-Easterly side line of Goodall-Sanford Road;

Thence N. 48°-09'-10" W., along said North-Easterly side line of Goodall-Sanford Road, a distance of 113.42 feet to the point of beginning of this description.

The above described lines being more fully shown on a Plan entitled, "Bolton Street, Reading, Mass.," dated January 17, 1955, Board of Public Works, James T. Putnam, Supt., said Plan being a part of this description.

We determine that no damages will be sustained by any person or persons in their property by reason of the taking to be made for this improvement. All acts in connection with said laying out are done under the provisions of law authorizing the assessment of betterments, and betterments are to be assessed therefore.

This laying out so made by us we hereby report to the Town for acceptance and recommend that said way shall thereafter be known as a public Town Way and named Bolton Street, and that the sum of Five Thousand Seven Hundred Ninety-five (\$5,795.00) Dollars, be raised and appropriated for said laying out and for the construction of said way.

(Signed) HAROLD D. KILGORE, Chairman
KENNETH R. JOHNSON
WALTER S. HOPKINS, JR.

Members of the Board of Public Works
Town of Reading

ARTICLE 47. On motion of Harold D. Kilgore, Jr., it was voted that the sum of Three Thousand Seven Hundred Forty and Sixteen One Hundredths (\$3,740.16) Dollars be appropriated from Surplus Revenue for the construction of sewers, sewerage works and other sewerage facilities to be used in such locations as the Board of Public Works may determine, said appropriation shall be apportioned as follows: Two Thousand Forty-one and one hundredth (\$2,041.01) Dollars for Salaries and One Thousand Six Hundred Ninety-nine and Fifteen one hundredths (\$1,660.15) Dollars for Expenses, said sum to be expended by and under the direction of the Board of Public Works, and that the Town Accountant be and hereby is authorized and instructed to transfer said sum to carry out the purpose of this vote.

ARTICLE 48. On motion of Harold D. Kilgore, Jr., it was voted that the sum of One Thousand Six Hundred (\$1,600.00) Dollars be transferred from Surplus Revenue and appropriated for the resurfacing with bituminous Macadam of two tennis courts in Birch Meadow Playground, said sum to be expended by and under the direction of the Board of Public Works and that the Town Accountant be and he hereby is authorized and instructed to transfer said sum to carry out the purpose of this vote.

ARTICLE 49. On motion of Harold D. Kilgore, Jr. it was voted that the sum of One Thousand Two Hundred (\$1,200.00) Dollars be raised and appropriated for the construction of two cement block field houses not exceeding One Hundred (100) square feet in floor area for the storage of playground equipment at Washington Street Playground and

Memorial Park, said sum to be expended by and under the direction of the Board of Public Works.

ARTICLE 50. On motion of Harold D. Kilgore, Jr. it was voted that the sum of Thirty-nine Thousand Five Hundred Fifty (\$39,550.00) Dollars be raised and appropriated by transferring Twenty-three Thousand Four Hundred Forty-eight and Thirty-one hundredth (\$23,448.30) Dollars of said sum from the Road Machinery Fund to the Road Machinery Operating Account and the remaining sum of Sixteen Thousand One Hundred One and Seventy-one hundredths (\$16,101.70) Dollars be raised from the Tax Levy and that the total sum of Thirty-nine Thousand Five Hundred Fifty (\$39,550.00) Dollars be appropriated for the maintenance, repair and operation of road machinery and for the purchase by the Board of Public Works of Two (2) $\frac{3}{4}$ Ton Pick-up Trucks, Two (2) $1\frac{1}{2}$ Ton Dump Trucks, Two (2) $2\frac{1}{2}$ Ton Dump Trucks, and One (1) Cubic Yard Front End Loader and the proceeds received from the old equipment not exceeding Four Thousand (\$4,000.00) shall be appropriated in addition to the above mentioned sum of Thirty-nine Thousand Five Hundred Fifty (\$39,550.00) Dollars as part of the purchase price for the above mentioned equipment and that the Town Accountant be and he hereby is authorized and instructed to transfer said amount to carry out the purpose of this vote.

ARTICLE 51. On motion of Walter S. Hopkins, Jr. it was voted that the sum of Six Thousand Five Hundred (\$6,500.00) Dollars be raised and appropriated for the purpose of improving and constructing a portion of West Street from Woburn Street toward the Wilmington-Reading Town Line, of which amount One Thousand Two Hundred Seventy-four and Forty-one One Hundredths (\$1,274.41) Dollars shall be transferred from the unexpended balance of the 1953 Charles Street Chapter 90 Construction Account and Three Thousand Three Hundred Thirty-three and Ninety-six One Hundredth (\$3,333.96) Dollars shall be transferred from the unexpended balance of the 1954 Charles Street Chapter 90 Construction Account and One Thousand Eight Hundred Ninety-one and Sixty-three one hundredths (\$1,891.63) Dollars shall be raised from the Tax Levy, together with such sums as may be provided by the State and County under Section 34 of Chapter 90 of the General Laws, and that the Town Accountant be and he hereby is authorized and instructed to transfer said sums to carry out the purpose of this vote.

ARTICLE 52. On motion of Walter S. Hopkins, Jr. it was voted that the sum of One Thousand Five Hundred (\$1,500.00) Dollars be raised and appropriated from the Tax Levy for maintaining, repairing and resurfacing streets constructed under Section 34 of Chapter 90 of the General Laws together with such sums as may be provided by the State and County.

On motion of Harold D. Kilgore, Jr. it was voted that ARTICLE 53 be indefinitely postponed.

ARTICLE 54. On motion of Walter S. Hopkins, Jr., it was voted that the sum of Nine Hundred Sixty (\$960.00) Dollars be raised and

appropriated for salaries for cleaning the Town Parking Areas located westerly of Main Street and Northerly of Haven Street, and Northerly of Haven Street and Easterly of Chute Street.

Article 55 and 56 see Pages 35 and 36.

ARTICLE 57. On motion of Harold F. Davis it was voted that the sum of Two Thousand (\$2,000.00) Dollars be appropriated from the Cemetery Reserve Fund receipts from the sale of lots and graves in Laurel Hill Cemetery and Forest Glen Cemetery for maintenance, care, improvement and embellishment of said cemeteries under the provisions of Section 15 of Chapter 114 of the General Laws.

ARTICLE 58. On motion of Robert E. Turner it was voted that the sum of Seven Thousand (\$7,000.00) Dollars of which sum \$5,350.00 is for personal services and \$1,650.00 for expenses, be raised and appropriated for the purpose of conducting and promoting recreation, play, sports, physical education and other social, educational and recreational activities upon such land and buildings as defined in Section 14 of Chapter 45 of the General Laws with authority to exercise all powers conferred therein including the purchase of the necessary equipment and the employment of teachers, supervisors and other officers and employees and the fixing of their compensation.

ARTICLE 59. On motion of Kenneth C. Latham it was voted that the sum of Twenty-five Hundred (\$2500.00) Dollars be raised and appropriated for the purpose of settling litigation pending in the Middlesex Superior Court relating to accident which occurred on August 27, 1951 on Summer Avenue, involving Marion A. Conant now deceased.

ARTICLE 60. On motion of Lawrence Drew it was voted that the sum of Six Hundred (\$600.00) Dollars be raised and appropriated for the eradication of mosquitoes in the Town, such sum to be expended under the supervision of the Board of Health.

ARTICLE 61. On motion of Lawrence A. Cate it was voted that Article 61 be indefinitely postponed.

ARTICLE 62. On motion of James T. Putnam, a member of the Committee on Town Forests it was voted that the Board of Selectmen be and they hereby are authorized to acquire for and in behalf of the Town by purchase, right of eminent domain or otherwise for the purpose of extending the Public Domain or Town Forest the following described parcel of land and that the sum of One Hundred (\$100.00) Dollars be raised and appropriated for the acquisition of said land:

A parcel of land containing four (4) acres, more or less, in Dividence Meadow, so called, bounded and described as follows:

Northerly by lands of the Inhabitants of the Town of Reading known as the Reading Town Forest;

Westerly and Southerly by lands now or formerly of David W. Davis; Easterly by lands now or formerly of Frank H. Whitchurch.

127 voted in the affirmative.

0 voted in the negative.

ARTICLE 63. On motion of Lawrence Drew it was voted that the sum of One Thousand (\$1,000.00) Dollars be raised and appropriated for the observance of the Christmas Season of 1955 by the decoration and illumination of public buildings and public streets and the decoration of Christmas trees upon municipal land.

ARTICLE 64. On motion of Frank M. Stevens it was voted that the sum of Fifteen Hundred (\$1500.00) Dollars be raised and appropriated for the purpose of providing by lease or otherwise suitable headquarters for Reading Post 62 of the American Legion.

86 voted in the affirmative.

29 voted in the negative.

ARTICLE 65. On motion of Ernest C. Metcalf it was voted that the sum of Six Hundred Sixty (\$660.00) Dollars be raised and appropriated for the purpose of providing by lease or otherwise, suitable headquarters for Reading Post 685 Veterans of Foreign Wars.

ARTICLE 66. On motion of Kenneth C. Latham it was voted that the sum of Six Hundred (\$600.00) Dollars be raised and appropriated for Child Welfare Work to be expended under the direction of the Reading Visiting Nurse Association and the Board of Health.

ARTICLE 67. On motion of Lawrence Drew it was voted that the sum of One Hundred (\$100.00) Dollars be raised and appropriated under the provisions of Sections 40 and 45, Chapter 128 of the General Laws, and the Board of Selectmen be and they hereby are authorized to appoint a Director to cooperate with the Middlesex County Trustees for the County Aid to Agriculture and work of the Middlesex County Extension Service and the 4-H Clubs.

BOYD H. STEWART, Town Clerk

SPECIAL TOWN MEETING

Senior High School Auditorium

October 27, 1955

The meeting was called to order by the Moderator, Charles P. Howard, at 8:00 P.M.

The warrant was partially read by the Town Clerk when on motion of Kenneth C. Latham it was voted to dispense with further reading of the warrant, except the Constable's Return, which was then read by the Town Clerk.

ARTICLE 1. The following report was read by Robert G. Clinch.

Report of Planning Board

Your Planning Board had a public hearing in Room 19 of the Municipal Building on Lowell Street, Reading on Monday, July 11, 1955 at 8:00 P.M. under Authority of Section 6 of Chapter 40A of the General Laws upon the proposed amendment to the zoning by-law and zoning map, which would change the following area from an A1 residence district to the industrial district.

Beginning at the point of intersection of the center line of John Street and the center line of a private way known as Lakeview Avenue;

Thence running in a Northeasterly direction along the center line of said Lakeview (Private) Avenue, a distance of approximately three hundred forty (340) feet to an angle point in said center line;

Thence turning and running in a more Easterly direction, still by said center line of Lakeview (Private) Avenue, a distance of approximately five hundred forty-five (545) feet to a point where the extension of the property division line between lots 89 and 90 shown on Town of Reading Assessor's Plat 47 meets the center line of said Lakeview (Private) Avenue;

Thence turning and running in a Southwesterly direction still by said Lakeview (Private) Avenue and along the division property line between said Lots 89 and 90, a distance of approximately two hundred thirty (230) feet to the present Industrial District;

Thence Westerly by the present Industrial District to the center line of John Street;

Thence in a Northwesterly direction by the center line of John Street to the point of beginning of this description.

At this hearing several citizens and the representatives of interested Town Boards attended. All who spoke at the hearing were in favor of the change and we had no one recorded in opposition.

Your Planning Board believes that this change would be advisable. We feel that the general characteristics of this lot of land lends itself ideally to an industrial development and we feel that Lakeview Avenue is a natural break between the residential and industrial zones. As you can see with reference to the zoning map this area is immediately adjacent to the present industrial area. Looking ahead we visualize

this whole area from the Town Line nearest Route 128 through to this Lakeview Avenue boundary as containing modern industry which should prove an economic benefit to the Town.

At this hearing it was indicated that the particular section under discussion had attracted at least one possible industrial buyer.

We, therefore, present this final report to the Town Meeting with the recommendation that this change be accepted.

Respectfully submitted,
(Signed) ROBERT G. CLINCH

A. ERNEST CORINDIA

BENJAMIN M. HARTSHORN, JR.

WILLIAM D. SOMMERS

Planning Board
Town of Reading

On motion of Kenneth C. Latham it was voted the report be accepted and placed on file.

ARTICLE 1. On motion of Kenneth C. Latham it was voted that the Town Forest Committee and Board of Selectmen be and they hereby are instructed to make available for the Reading Boy Scouts for a camp site, a portion of the Town Forest and to establish such rules and regulations as they may deem advisable governing the use of such premises by the Scouts.

On motion of Harold L. Jones it was moved that the following be substituted for Mr. Latham's motion:

That the Planning Board be and hereby are instructed to take such action as may be necessary to rezone the area bounded roughly by Main Street, South Street, Curtis Street and Route 128 from Business C to Residence A. (Applies to the following motion).

This motion was lost.

ARTICLE 1. On motion of Kenneth C. Latham it was voted that the Board of Selectmen be and they hereby are instructed to take necessary action to extend welcome to the Addison-Wesley Publishing Company, Inc. to locate its publishing business in the Town on parcel of land on South Street near Route 128, which location is within the Business C District under the Town Zoning By-law and to cooperate with the Company in the matter of making available the Municipal facilities necessary for its proposed building and its contemplated business.

ARTICLE 1. The following report was read by Wendell H. Packard:

**Report of the Special Committee to Study the Fluoridation
of the Town of Reading Public Water Supply**

The committee is studying the considerable volume of literature available concerning fluoridation, and meeting at intervals to correlate

and condense this data into a report for the information of the town meeting members at the annual meeting in March.

H. F. McRELL, JR.

On motion of Kenneth C. Latham it was voted that report be accepted as a report of progress and placed on file.

On motion of Kenneth C. Latham it was voted to place Article 1 on the table.

ARTICLE 2. On motion of Gilbert M. Lothrop it was voted that the sum of Three thousand (\$3,000) Dollars be appropriated by transferring Seventeen Hundred Fifty (\$1750) Dollars from Surplus Revenue and Twelve Hundred Fifty (\$1250) Dollars from the Interest Account and that said sums be transferred to Veterans Benefits Aid Account and the Town Accountant be and hereby is authorized and instructed to transfer said amount to said account.

ARTICLE 3. On motion of Gilbert M. Lothrop it was voted that the Board of Selectmen be and they hereby are authorized to lease upon such terms and conditions as they may determine a small triangular piece of land situated on the Southerly side of Haven Street and adjoining the premises now occupied by the Municipal Light Department which lot has frontage on Haven Street of 14.01 feet and depth of 86.39 feet and estimated to contain 605 square feet of land and said Board are further authorized to execute for and in behalf of the Town a lease running to the Lessee in such form and upon such terms and conditions as the Board may deem advisable.

ARTICLE 4. On motion of Kenneth C. Latham it was voted that the gift of the residue of the Estate of the late Harriet Foster under the twelfth clause of her will be and the same hereby is accepted, such gift to be held in trust with other funds bequeathed to the Town for the establishment of a hospital as provided in said Will and the Town Treasurer be and he hereby is authorized to execute for and in behalf of the town a release or other documents acknowledging the receipt of such bequest.

ARTICLE 5. On motion of Kenneth C. Latham it was voted that the gift of Twelve Thousand (\$12,000.) Dollars under the tenth clause of the Will of the late Harriet Foster to be held in trust for the use of the Reading Public Library as provided in said Will be and the same hereby is accepted and the Town Treasurer be and he hereby is authorized to execute for and in behalf of the Town the Release or other documents acknowledging receipt of such bequest.

ARTICLE 6. On motion of Lawrence Drew it was voted that the sum of Five Hundred (\$500) Dollars be appropriated by transferring said sum from the Fire Alarm Maintenance Expense Account to the Fire Alarm Maintenance Salaries Account and the Town Accountant be and he hereby is authorized and instructed to transfer said sum to said account.

ARTICLE 7. On motion of Lawrence Drew it was voted that Article 7 be indefinitely postponed.

ARTICLE 8. On motion of Lawrence Drew it was voted that Article 8 be indefinitely postponed.

ARTICLE 9. On motion of Kenneth C. Latham it was voted that the Board of Selectmen be and they hereby are authorized for and in behalf of the Town to convey or abandon for the minimum sum of Two Hundred (\$200) Dollars and upon such other terms and conditions as they may determine the easement acquired by the Town for drainage purposes and located on the Southwesterly side of John Street and extending to Ash Street and shown as two separate easement areas and bounded:

First Parcel: Beginning at the Town line on the Southerly side of John Street and running in a Northwesterly direction a distance of 20 feet more or less; thence turning and running in a Southwesterly direction for a distance of 844 feet more or less; thence turning and running in a Southeasterly direction for a distance of 20 feet more or less; thence turning and running in a Northeasterly direction for a distance of 842 feet more or less to the point of beginning. Said parcel containing 16,860 square feet more or less.

Second parcel: Beginning at the most Northerly corner of the easement area at land of the Boston & Maine R.R.; thence Southwesterly 1227 feet more or less to Ash Street; thence turning and running Southeasterly by Ash Street 20 feet; thence turning and running Northeasterly feet more or less to land of the Boston & Maine R.R. and thence turning and running Northwesterly by land of the Boston & Maine R.R. 20 feet to the point of beginning. Said parcel containing 24,560 square feet more or less.

And said Board of Selectmen be and they hereby are authorized to execute for and in behalf of the Town such conveyance or abandonment of such easement together with such other instruments which may be necessary in connection therewith.

Voted 113 Affirmative

0 Negative

On motion of Kenneth C. Latham it was voted that Article 10 be indefinitely postponed.

ARTICLE 11. On motion of Robert G. Clinch it was voted that the Zoning By-Law and Zoning Map be and the same hereby is amended by changing the area hereinafter described from the Residence A-1 District to the Industrial District:

Beginning at the point of intersection of the center line of John Street and the center line of a private way known as Lakeview Avenue;

Thence running in a Northeasterly direction along the center line of said Lakeview (Private) Avenue a distance of approximately three hundred forty (340) feet to an angle point in said center line;

Thence turning and running in a more Easterly direction, still by said center line of Lakeview (Private) Avenue, a distance of approximately five hundred forty-five (545) feet to a point where the extension of the property division line between lots 89 and 90 shown on Town of Reading Assessor's Plat 47 meets the center line of said Lakeview (Private) Avenue;

Thence turning and running in a Southwesterly direction still by said Lakeview (Private) Avenue and along the division property line between said Lots 89 and 90, a distance of approximately two hundred thirty (230) feet to the present Industrial District;

Thence Westerly by the present Industrial District to the center line of John Street;

Thence in a Northwesterly direction by the center line of John Street to the point of beginning of this description. Voted 116 Yes, 0 No.

ARTICLE 12. On motion of Robert E. Turner it was moved that there be allotted the sum of Twenty Thousand (\$20,000.) Dollars from the appropriation of \$2,400,000.00 voted under Article 33 at the Annual Town Meeting held March 19, 1951 and said sum of Twenty thousand (\$20,000.) Dollars be allotted for the purpose of finish grading including seeding of land in Birch Meadow adjacent to the new High School and covering approximately 20,000 square yards of Area 3 shown on Plan made in 1954 by Whitman & Howard Engineers, a copy of which Plan is filed in the Town Clerk's Office.

43 voted in the affirmative.

57 voted in the negative.

This motion was lost.

ARTICLE 13. On motion of Harold L. Jones it was voted that the Schedule of Minimum and Maximum salaries to be paid to employees in the positions included in the Employees Classification Plan be amended by striking out the hourly and weekly minimum and maximum as appearing therein and substituting in place thereof under the Job Classifications the following new hourly and weekly minimum and maximum rates:

Classification

Section 5. Municipal Light Department

	Weekly Rate	
	Min.	Max.
Manager	173.07	211.53

Section 10. Fire Department

	Hourly Rate	
	Min.	Max.
Extra or part time work75	1.39

ARTICLE 14. On motion of Harold D. Kilgore, Jr. it was voted that the sum of Twenty-one Thousand (\$21,000.) Dollars be appropriated by transferring said sum from the Water Available Surplus to the Account for construction, maintenance and operation of water works, to be apportioned One Thousand (\$1,000.) Dollars for Personal Services and Twenty Thousand (\$20,000.) Dollars for Expenses and the Town Accountant be and hereby is authorized and instructed to transfer said sum to carry out the purpose of this vote.

ARTICLE 15. On motion of Kenneth R. Johnson it was voted that the sum of Nine Hundred (\$900.) Dollars be appropriated from the Drainage Construction Expense Account and transferred for the payment of land damages caused by the relocation of Birch Meadow Brook, so-called, from near John Carver Road to Intervale Terrace and the Town Accountant be and hereby is authorized and instructed to transfer said sum to carry out the purpose of this vote.

ARTICLE 16. On motion of Walter S. Hopkins, Jr. it was voted that the sum of One Thousand (\$1,000.) Dollars be appropriated by transferring said sum from the Maintenance of Storm Drains Personal Services Account to the Maintenance of Storm Drain Expense Account and the Town Accountant be and hereby is authorized and instructed to transfer said sum to said account.

ARTICLE 17. On motion of Edouard N. Dube it was voted that the Town acquire by purchase for enlargement of the Forest Glen Cemetery a lot of land containing 3048 square feet and shown as Lot A on Plan of Lots situated in Reading, Mass., dated October 1, 1955 made by Harold F. Davis, Supt. of Cemeteries, Town of Reading and bounded and described as follows:

Beginning at an iron pipe at the most Westerly corner thereof at land of the Inhabitants of the Town of Reading (Forest Glen Cemetery) and land of James T. Putnam and Charlotte R. Putnam;

Thence S. 83°-37'-20" E. by Forest Glen Cemetery 153.30 feet to a Cement Bound;

Thence turning and running S. 12°-36'-20" W. by Forest Glen Cemetery 40 feet;

Thence turning and running N. 68°-40'-30" W. by land of Reading Acres, Inc., 154.18 feet to the iron pipe and the point of beginning, and the Board of Selectmen are hereby authorized for and in behalf of the Town to convey in exchange for the above described Lot a small triangular piece of land containing 3048 square feet and shown as Lot B on said Plan and bounded and described as follows:

Beginning at the Southwesterly corner thereof at a drill hole at land now of Reading Acres, Inc.;

Thence N. 12°-36'-20" W. by land of Reading Acres, Inc., 40 feet;

Thence turning and running S. 75°-35'-00" E. by land of the Inhabitants of the Town of Reading (Forest Glen Cemetery) 152.47 feet to land of Reading Acres, Inc.

Thence turning and running S. 89°-36'-20" W. by land of Reading Acres, Inc. 156.40 feet to the drill hole and the point of beginning, and said Board of Selectmen are further authorized to execute for and in behalf of the Town such conveyance and other instruments which may be necessary in connection therewith and that the sum of Sixty-five (\$65) Dollars be appropriated by transferring said sum from the Cemetery Expense Account and the Town Accountant be and he hereby is authorized and instructed to transfer said sum to carry out the purpose of this vote.

NOTICE TO PARENTS, HOUSEWIVES, PHYSICIANS AND MID-WIVES

Your attention is called to the sections below taken from the revised laws. Blank forms for return of birth can be obtained from the Town Clerk.

General Laws, Chap. 46, Sec. 3 (Tercentenary Edition)

(As amended By Chapter 326, Section One, Acts of 1939)

Every physician, or hospital medical officer registered under section nine of chapter one hundred and twelve, in this chapter called officer, shall keep a record of the birth of every child in cases of which he was in charge, showing date and place of birth, the name, if any, of the child, its sex and color, the name, age, birthplace, occupation and residence (including the street number, if any, and the ward number if in a city) of each parent, the maiden name of the mother and the name of the physician or officer, if any, personally attending the birth. If the child is illegitimate, the name of and other facts relating to the father and mother; provided that if an illegitimate child shall have become

legitimate by the intermarriage of his parents and the acknowledgement of his father, as provided in section seven of chapter one hundred and ninety, prior to the mailing or delivery of any report herein required, such report shall read in all respects as if such child had been born to such parents in lawful wedlock. Said physician or officer shall, within 15 days after such birth, mail or deliver to the clerk or registrar of the town where such birth occurred, a report stating the facts herein above required to be shown on said record and also the said written request, if any; provided that if said report is not so made within forty-eight hours after such birth, said physician, or officer shall within said forty-eight hours, mail or deliver to said clerk or registrar a notice stating the date and place of the birth, the street number, if any, the ward number, if in a city, and the family name. Upon presentation to him of a certificate of the town clerk stating that any such birth has been duly reported, the town treasurer shall pay to such physician or officer a fee of twenty-five cents for each birth so reported. Any physician or any such officer violating any provision of this section shall forfeit not more than twenty-five dollars. The said town clerk or registrar shall file daily with the local board of health, a list of all births reported to him, showing, as to each, the date of birth, sex, color, family name, residence; ward and physician or officer in charge.

Within sixty days after the date of the birth of any child born in the commonwealth with visible congenital deformities, or any condition apparently acquired at birth which may lead to crippling, the physician in attendance upon said births shall prepare upon a form provided by the state department of public health and file with the clerk of the town where such births occurred a report setting forth such visible congenital deformity, or any condition apparently acquired at birth which may lead to crippling.

Said clerk shall transmit forthwith to said department such supplementary report of such birth. The contents of such report shall be solely for the use of said department in connection with its functions relative to crippled children, and such report shall not be open to public inspection or constitute a public record.

General Laws, Chap. 46, Sec. 6

Parents within forty days after the birth of a child, and every householder, within forty days after a birth in his home, shall cause notice thereof to be given to the clerk of the town where such child is born.

General Laws, Chapter 111

Sections 110 and 111, require physicians, registered hospital medical officers, nurses or other attendants to report at once to the local board of health, every child one or both of whose eyes become inflamed, swollen and red and show an unnatural discharge within two weeks after birth.

REPORT OF THE TOWN COUNSEL

January 10, 1956

To the Law Committee of the Town of Reading:

I submit my final report as Town Counsel for the year 1955 as follows:

Opinions were rendered to Town Officials and Boards during the year. All tax titles have been duly foreclosed under the Statute of Low Value or by appropriate proceedings in the Land Court.

Articles and Motions have been drafted for Annual and Special Town Meetings held during the year.

Proceedings were commenced in the Middlesex Superior Court for damages resulting in taking of land by right of eminent domain for highway purposes in connection with the layout of access street to serve the new High School. The Pleadings have been completed and the case remains on the docket for trial or other disposition.

The Planning Board have taken three Appeals from the decisions of the Board of Appeals under the Zoning By-law. Pleadings were completed in behalf of the Board of Appeals and in the three cases the Petitioners seeking the variance under the Zoning Law were permitted by the Court to intervene as party respondents in order to allow such applicants to urge the Court to sustain the variance granted by the Board of Appeals. One case has been tried in the Superior Court resulting in a favorable decision to the Planning Board and the petitioner for the variance has appealed to the Supreme Judicial Court for final decision on questions of law. The other two cases are pending in the Court awaiting trial or other disposition.

During the year many cases were handled under the Old Age Assistance Law in the matter of securing reports concerning the financial resources of children in order to determine their liability to contribute to the support of their Aged Parents. Also monthly sums have been collected from such children and Petitions under recent law have been filed in Court to compel children to contribute to the support of the Old Age Assistance Recipient. A Mortgage covering the New Hampshire property was drafted by me to secure the reimbursement in an Old Age case which resulted in the recovery by the Town of \$1,235.29. Also notices of claims in behalf of the Town for reimbursement in Old Age Assistance cases have been filed in the Middlesex Probate Court against the Estate of deceased persons and in one case the sum of \$158.85 has been collected.

Three Appeals from the valuation established by the Board of Assessors upon real estate are pending before the Appellate Tax Board. During the year a favorable decision was rendered by the Appellate Tax Board sustaining the decision of the Board of Assessors in refusing to grant an exemption to a taxpayer.

Litigation is now pending in the United States District Court and the Middlesex Superior Court involving the Town and the Contractor

who was engaged in constructing the trunkline sewer to serve the new High School and several statutory liens have been filed by sub-contractors against the funds of the General Contractor in the hands and possession of the Town. This controversy has not yet been settled.

All Contract Documents were prepared by me for installing the heating system and power oil burner for the Highland School.

I also prepared and had executed Contract with Architect for the preliminary plans and surveys for a new Fire Station on Woburn Street.

Options were prepared for the acquisition of land for school purposes and also for land as proposed site for sub-station in the Town of Lynnfield for the Electric Light Department and an Option was prepared and executed for the acquisition of a small triangular piece of land for Forest Glen Cemetery in exchange for another piece of land adjacent to the Cemetery.

I caused the title covering these parcels to be examined, the Deeds and other documents to be prepared and recorded in the Middlesex South District Deeds.

Petition in behalf of the Electric Light Department was prepared and filed with the Public Utilities requesting a statutory order to locate a substation on Main Street, Lynnfield Centre, in order to furnish the Town with more adequate service and after public hearing, the matter was taken under advisement.

The titles to land to be acquired by the Town for public purposes were caused to be examined by me and Deeds and Orders of Taking were prepared so that the land was acquired by the Town for the purpose designated in the Vote adopted at Town Meeting assembled.

The final claim for damages for taking of land for trunkline sewer to serve the new High School has been settled under the supervision of the Law Committee and the necessary confirmatory Deed and Release were prepared and recorded as required by law.

Proceedings in behalf of the Town were commenced in the Middlesex Superior Court against property owner and his tenant to prevent them for committing further violations of the Zoning By-law and after hearing and by stipulation of the parties an order was entered by the Court requiring the buildings in the restricted area to be removed and certain other trailers and mobile storage units to be also removed from the premises.

Claims of the Electric Light Department have been prosecuted and a suit and real estate attachment have been commenced to collect a substantial account. Also several proofs in Bankruptcy have been filed based on claims of the Electric Light Department.

Three suits were brought against the Town in Middlesex Superior Court resulting from accidents on the highway. Several claims have been made against the Town for personal injuries and damages to motor vehicles resulting from accidents on the highways and several claims have been made for blasting operations carried on by the Board of Public Works. One suit involving serious injuries has been settled by authorization of the Law Committee and vote of the Town. There are

still pending ten suits against the Town in the Middlesex Superior Court. Seven claims have been settled by approval of the Law Committee.

I have attended on Monday evening throughout the year the regular meetings of the Board of Selectmen and as provided by the regulations of the Town I have performed every professional act required by me in the performance of the duties of my office including in part appearances in Court and hearings before Boards or Commissions, prosecution of claims in behalf of the Town, opinions to all Town Boards and Committees, investigation of accident cases and claims against the Town, drafting Deeds, Releases, Redemption Deeds, retirement of Veterans employed by the Town, decisions in dog cases, preparation and filing pleadings in the Superior, District and Land Court and such other legal matters referred to me for attention.

As I am retiring as Town Counsel at the end of this month after twenty-eight years and ten months of service I take this opportunity to publicly thank the Law Committee, All Town officials and Boards and the Citizens of Reading for the fullest measure of co-operation extended to me during my service for the Town and to my successor in office I extend my sincere wishes for a long and successful period of administration. To him also I pledge my full cooperation and counsel at any time in connection with the performance of the duties of his office.

Respectfully submitted,

SAMUEL H. DAVIS,

Town Counsel

REPORT OF BOARD OF APPEAL

To The Board of Selectmen
Reading, Massachusetts

The undersigned submit their report for the Board of Appeal of the Town for the year 1955.

The Board heard 24 cases on 14 hearing days. All were for variations of the Zoning By-Laws. Of the total, 17 were granted and 6 were denied. 1 was conditional.

At the close of the year, one petition brought before the Board has not been heard. Decisions have been rendered on all of the aforementioned 24 cases.

GERALD E. FOSBROKE

LAWRENCE A. INGHAM

ERNEST L. NIGRO

REPORT OF THE POLICE DEPARTMENT

Honorable Board of Selectmen
Municipal Building
Reading, Mass.

Gentlemen:

The report of the Police Department for 1955 is hereby submitted. Two Officers resigned to go into private employment, one of these had served a little over 14 months, the other had served 8 years.

There was 1 Patrolman, Robert P. Jones, appointed during the year to fill vacancy.

In August of this year an examination was held for promotion to Sergeant. John F. Beaudoin was appointed Sergeant.

Personnel of the Department at present consists of Chief, 4 Sergeants and 18 Patrolmen.

Following are the arrests and other servcies performed:

Drunkenness	96
Breaking and Entering	6
Larceny	12
Assault and Battery	2
Non-Support	2
Manslaughter	1
Arrests by warrants for other Departments	6
Juvenile Delinquents	6

Automobile Violations

Parking violations	230
Speeding	410
Driving to endanger	2
Operating under influence	10
All others	12

Other Services

Recovered bicycles	26	
Value of stolen property recovered		\$ 1,238.00
Ambulance trips	281	
Automobile accidents investigated	121	
Lost children returned	14	

Fees Collected and Turned Over to Town Treasurer

Ambulance fees	\$ 1,468.00
Bicycle Registrations	117.25

Automotive Equipment

1 1946 Cadillac Ambulance	35,200	mileage
1 1955 Ford	5,500	"
1 1956 Country Sedan	4,000	"
1 1955 Ford	31,000	"
1 1954 Ford	17,000	"

Recommendations

That the Department be increased by at least three (3) Patrolmen in 1956. That new Police Call Boxes be installed so that more foot patrols can be added.

That our 1946 Ambulance be replaced. That plans be made to enlarge the Police Station within the next five years.

During the year our Police Reserves served the Town on many occasions in addition to their Sunday Traffic Control at the Churches. Reading is indeed fortunate to have such a fine public spirited group of men who are so ready and willing to serve the Town without recompense.

In closing I wish to thank the Honorable Board of Selectmen and all the members of the Department for their continued co-operation throughout the year. Thanks also to Fire Chief Eames and his able firefighters who have rendered assistance to our Department on many occasions.

Respectfully submitted,

ROLAND E. ELLIS

Chief of Police

REPORT OF INSPECTOR OF BUILDINGS

To the Honorable Board of Selectmen

Gentlemen:

I hereby submit my report for the year 1955.

The building construction for the past year was as follows:

181 New one family dwellings at an estimated cost of	\$1,762,700.00
64 Alterations and additions to dwellings at a cost of	77,250.00
6 Alterations and additions to business properties at an estimated cost of	15,225.00
27 New private garages at an estimated cost of	30,225.00
3 Signs	3,700.00
4 Business Buildings	45,500.00
3 Sheds	1,000.00
1 Hobby Shop	400.00
6 Raze Buildings	
1 Church Alteration	1,200.00

Total estimated cost of all new and remodeled buildings
for the past year \$1,937,200.00
Total Number of Permits 296

Fees were received in the amount of \$1,075.00. These have been turned over to the Town Treasurer and receipts received for same.

Respectfully submitted,

HAROLD B. CURRELL

Inspector of Buildings

SUPERINTENDENT'S REPORT

To The Board of Cemetery Trustees,
Town of Reading, Mass.

Gentlemen:

The Superintendent's Report on the operation of the two Town Cemeteries, Laurel Hill and Forest Glen, for the fiscal year ending December 31, 1955, and the Department's 218th year of operation, (first burial Dec. 7, 1737), is herewith submitted.

Our records show 126 interments for the year. The statistics for the calendar year 1955 are as follows:

	Laurel Hill	Forest Glen	Total
Interments	46	67	113
Cremation Interments	11	2	13
Foundations:			
Monuments	10	32	42
Markers	28	10	38
Graves Repaired	76	11	87
Lots sold:			
7 Grave	2	0	2
6 Grave	0	2	2
4 Grave	0	9	9
3 Grave	0	5	5
2 Grave	0	23	23
Single Graves	0	2	2
Baby Graves	0	4	4
Welfare Graves, gratis	0	2	2
Veterans Graves, gratis	0	5	5

Nine old lots and one single grave in Laurel Hill Cemetery had perpetual care put on them and one old lot had additional care put on during 1955.

The total number of lots and graves sold and interments made to date are as follows:

Cemetery	Lots	Single Graves	Interments
Laurel Hill	1415	1142	6957
Forest Glen	371	108	484
	<hr/>	<hr/>	<hr/>
Total	1786	1250	7441

At Laurel Hill, Aster Path and that portion of Hazel Path running easterly from Cypress Avenue, was filled in and turfed. Ninety linear feet of a fieldstone retaining wall was constructed along the Cypress and Elm Avenue frontages of lots 38, 39 and 40. Repairs were made in the retaining wall south of Federal Street by closing in the tree wells where sixteen trees have been removed within the past nine years. Extensive repairs were made to lots 187 and 219 by regrading and the construction of retaining walls. Hurricane damage to the chain link fence south of Federal Street was repaired.

The October 27, 1955 Special Town Meeting voted to acquire a triangular lot of land containing 3,048 square feet for the enlargement of Forest Glen Cemetery, from land of Reading Acres, Inc., and in exchange therefor convey to the Reading Acres, Inc., a triangular lot of land containing 3,048 square feet. This exchange provides an access to the parcels of land purchased at the December 6, 1954 Special Town Meeting, without demolishing a rubble masonry wall.

On March 15, 1955 our Chairman, Mr. Fred L. Nutter, passed away after having served on the Board for twenty-seven years, including eight as Secretary and eight as Chairman. As one who was closely associated with Mr. Nutter for many of these years, it seems appropriate to express my personal appreciation of his valued counsel and unstinted devotion to the work of this Department.

At this time appreciation is expressed to the other Departments of the Town for their cooperation.

The financial statement will appear in the report of the Town Accountant.

Respectfully submitted,
HAROLD F. DAVIS
Superintendent

REPORT OF THE BOARD OF CEMETERY TRUSTEES

The Report of the Superintendent as submitted by him is hereby approved by the Board of Cemetery Trustees and constitutes its Report to the Town.

EDOUARD N. DUBE, Chairman
M. RUSSELL MEIKLE, Secretary
WILLIAM P. PIERPONT
ERNEST E. BROWN
STANLEY F. MAXWELL

REPORT OF CUSTODIAN OF SOLDIERS' AND SAILORS' GRAVES

January 3, 1956

To The Board of Selectmen,
Town of Reading, Mass.
Gentlemen:

I herewith submit my report as Custodian of Soldiers' and Sailors' Graves for the year ending December 31, 1955. This report is predicated upon the requirements of Sec. 9, Chapter 115 of the General Laws of Massachusetts and Clause 12, Chapter 44 of the Acts of 1947.

Where Veterans of the armed services have served in more than one war of insurrection, the following listing gives the Veteran credit for only one:

Veterans	Credited Service
41	Revolutionary War
12	War of 1812
2	Mexican War
291	Civil War
1	Indian War
25	Spanish War
113	World War I
26	Mass. State Guard Service in W. W. I
32	World War II
2	Korean Service

Total	545		
Appropriation for 1955			\$ 1,200.00
Pay Roll	\$ 1,112.87		
Repairs on Veteran Graves	87.13		
		\$ 1,200.00	\$ 1,200.00

There were nineteen Veterans interred during 1955 in the Town Cemeteries as follows:

World War I

Maurice O. Reebeacker, Lot. No. 405, Forest Glen, died Dec. 29, 1954, buried Jan. 3, 1955.

Philip S. Munch, Grave No. 29, Veteran Plot, Forest Glen, died Jan. 5, 1955, buried Jan. 7, 1955.

Laurence H. White, Lot No. 268, Forest Glen, died Jan. 29, 1955, buried Feb. 1, 1955.

Robert A. Packard, Grave No. 28, Veteran Plot, Forest Glen, died Feb. 1, 1955 buried Feb. 4, 1955.

Edward B. Keene, Lot No. 288, Forest Glen, died Mar. 3, 1955, buried Mar. 7, 1955.

Dana S. Stulce Lot No. 322, Forest Glen, died Mar. 9, 1955, buried Mar. 12, 1955.

Loring W. Hamm, Lot No. 21A, Forest Glen, died Mar. 14 ,1955, buried Mar. 18, 1955.

Victor E. Olsen, Lot No. 600, Forest Glen, died Apr. 20, 1955, buried Apr. 29, 1955.

Quinn W. Jordan, Grave No. 57, Veteran Plot, Forest Glen, died July 11, 1955, buried July 13, 1955.

Thomas E. Wall, Lot No. 424, Forest Glen, died Sept. 28, 1955, buried Oct. 4, 1955.

William A. Connelly, Lot No. 163, Forest Glen, died Nov. 6, 1955, buried Nov. 10, 1955.

George A. Melanson White, Grave No. 2, Veteran Plot, Forest Glen, died Dec. 21, 1955, buried Dec. 24, 1955.

George W. Sargent, Lot No. 437, Forest Glen, died Dec. 24, 1955, buried Dec. 27, 1955.

World War II

Thomas H. Ratchford, Jr., Lot No. 628, Forest Glen, died Mar. 10, 1955, buried Mar. 14, 1955.

Louis C. Babine, Jr., Lot No. 109, Forest Glen, died Aug. 20, 1955, buried Aug. 23, 1955.

Stuart F. Taylor, Lot No. 90, Forest Glen, died Oct. 11, 1955, buried Oct. 14, 1955.

Korean Service

Charles A. Ogden, Grave No. 79, Veteran Plot, Forest Glen, died in Korea Dec. 1, 1950, buried May 26, 1955. (Also World War II).

Mass. State Guard

Carl B. Sawyer, Lot No. 701, Laurel Hill, died Feb. 7, 1955, buried Feb. 25, 1955.

Charles E. Langdon, Lot No. 967 Laurel Hill, died Dec. 27, 1955, buried Dec. 29, 1955.

OMITTED IN 1944 TOWN REPORT

Spanish War

Ernest P. Nowell, Lot No. 326, Laurel Hill, died Aug. 30, 1944, buried Sept. 1 1944.

Respectfully submitted,

HAROLD F. DAVIS

Custodian of Soldiers' and Sailors' Graves

AGENT FOR VETERANS' BENEFITS

January 9, 1956

Honorable Board of Selectmen
Reading, Massachusetts

I respectfully submit my report as Agent of Veterans' Benefits for the year 1955.

While employment conditions have been good our load has increased over 1954.

We have had 46 cases varying in size from an individual to a family of nine, with a total of 102 persons having been assisted with Veterans' Benefits.

In addition to the above, we have received and investigated six other applications for benefits that were rejected through ineligibility.

Our work has been under strict supervision and investigation by the State Commissioner's office through his investigators and authorizers, thus insuring the best interest for the town and the applicant.

The influx of new people coming into Reading with a large percentage of wars among them may mean a potential increase in Veterans' Benefits.

The work as Director of Veterans' Services continues to be in great demand.

We have assisted veterans to solve their problems in many ways and too numerous to keep a record of.

The expense for this service is very small compared to the results obtained.

Veterans and their dependents can readily obtain answers to their questions and help if needed.

Yours very truly,

CHARLES W. H. SMITH

Agent

REPORT OF THE BOARD OF HEALTH

To the Citizens of Reading:

During the past year we embarked on what proved to be an abortive program of Polio immunization with the Salk vaccine. After one dose was given to grades 1 to 3 the program was suspended. Fortunately the situation has now clarified and we anticipate that during 1956 most Reading children, ages 1 through 9, will be vaccinated. During the 1955 Polio epidemic Reading was severely hit, however, the next few years should be relatively light because we will have a highly immunized population.

Our multiple other functions have operated smoothly. Due to the increasing size of the town it is becoming urgent that this Board have a full time clerk and a public health nurse. Such requests will be included in our 1956 budget.

Respectfully submitted,

CHARLES R. BAISLEY, M.D.

Chairman

REPORT OF THE INSPECTOR OF WIRES

To the Honorable Board of Selectmen,

Gentlemen:

I hereby submit my report for the year 1955.

Permits were issued and inspections made on the following,

Additions to existing wiring	216	Panels (radiant)	1
Air conditioners	21	Ranges(electric)	194
Beauty shops	1	Replace damaged cable	1
Churches (additions)	6	Replace underground cable	1
Clothes dryers	41	Rewiring of switchboard	1
Dishwashers	9	Rewiring after fire	1
Dwellings (new)	186	Repairs to existing wiring	12
Dwellings (old)	7	Services (permanent)	180
Garages	3	Services (temporary)	34
Garbage disposals	12	Services (change to 3 wire)	55
Gasoline pumps	2	Schools (additions)	4
Gasoline stations	2	Signs	5
Gas heater controls	30	Stores (additions)	15
Industrial mixers	1	Stores (new)	2
Manufacturing plants	2	Telephone booths (outdoor)	2
Motors	20	Time clock systems	2
Oil burners	280	Vent fans	105
Pumps	4	Water heaters	30
		Washers (automatic)	11
		Wiring condemned	7
		X-Ray equipment	2

There were twelve violations during the year which included improper wiring and wiring without a permit, these cases were cleared up satisfactorily. Most of this work was performed by Mr. George F. Fogg who retired on November 1st, 1955, after eight years of excellent service. Each year shows an increase in the number of inspections to be made and in 1956 even more is anticipated. In the coming year, I hope that time will permit me to make a more intensive inspection of the public buildings and stores, which appears very much needed.

Respectfully submitted,

JAMES F. O'DOWD

Inspector of Wires

REPORT OF THE PLUMBING INSPECTOR

To the Board of Health

Gentlemen:

The annual report of the plumbing inspector for the year ending December 31, 1955 is as follows:

Number of permits issued	382
Number of fixtures installed	1,811
Gas Storage — Hot Water Heaters	66
Electric Storage — Hot Water Heaters	49
Hot Water Tanks	10
Tankless Heaters	148
Water Closets	333
Lavatories	334
Bath Tubs	235
Showers	17
Urinals	1
Sinks	255
Laundry Trays	78
Disposals	10
Dish Washing Machines	15
Washing Machines	35
Traps	1
Soda Fountain	1
Repiping	2
Drains	1
Wash Fountain	1
Sewer Connections	56
Cesspools	163
Fees for Permits	\$ 1,140.00

Respectfully submitted,

KENNETH G. SHAW

Inspector of Plumbing

REPORT OF THE BOARD OF SELECTMEN

The Board organized at a special meeting held on March 10, 1955, as follows:

Kenneth C. Latham, Chairman

Lawrence Drew, Secretary

Gilbert M. Lothrop

Boyd H. Stewart, Clerk

Regular meetings were held every Monday night with the exception of the summer months when they were held every other Monday, with special meetings being held whenever necessary. The agenda of the meetings and such hearings as were held were furnished regularly to the Reading Chronicle for weekly publication. The departments under the jurisdiction of this Board have made separate reports which appear on other pages of this publication.

The Board had several meetings with members of the Massachusetts National Guard with reference to using the facilities of the old High School. During the Annual Town Meeting and at a Special Town Meeting in October, the Town was asked for an expression of opinion as to its desire in this matter, and in both cases the Town expressed the feeling that the National Guard should be accepted.

The Board appointed a committee to study future uses of the old High School under the chairmanship of Mr. Forrest T. Benton. This committee studied the possibilities of various organizations throughout the town obtaining housing in the Old High School, and the Board is personally working in this direction.

On April 4, 1955, the Board voted to amend the Traffic Rules and Regulations to require vehicular traffic on Washington Street to come to a complete stop before entering Main Street.

Based on a vote of the Town Meeting, the Board appointed a committee to study suitable building sites for additional school housing and recreational areas. This committee is under the chairmanship of Woodbury C. Titcomb. It is anticipated that their report will be submitted to the Annual Town Meeting in 1956.

The Board also appointed a committee to study the feasibility of fluoridation of the town's public water supply as directed by vote of the Town Meeting.

On May 2, 1955, the Board voted to amend the Traffic Rules and Regulations to make the following streets one way: Sanborn St. from Woburn St. southerly to Haven St.; Linden St. from Haven St. northerly to Woburn St.; Chute St. from Haven St. Northerly to Woburn St.

The Board appointed members, as instructed by vote of the Town Meeting, of a building committee for the construction of an elementary school on Forest Street. This committee was under the chairmanship of Mr. Edward Palmer who later in the year found it necessary to resign as a result of being transferred out of state.

During the year the Board held several public hearings with reference to complaints which were filed against owners of dogs.

The Board held several meetings with the Boston and Maine Railroad and carried on considerable correspondence with regard to the crosswalk at the railroad station. Plans presently are being made for the installation of signal lights and warning bells at this location to try to prevent further accidents.

On August 8, 1955, the Board voted to take by right of eminent domain four acres of land in Dividence Meadow. On the same date it also voted to take by right of eminent domain land situated southerly of Forest St. and adjacent to Birch Meadow, estimated to contain 10.896 acres, for school purposes.

As a result of conferences with members of Boy Scout troops in Reading, the Board voted temporary use of the Town Forest to the Boy Scouts for camping sites. These facilities were to be used in conformance with a set of rules and regulations which were to be drawn up in this connection.

On October 3, 1955, as a result of many conferences, investigations, etc., the Board appointed Mr. Charles Loring as architect to prepare plans and specifications for a proposed new fire station, this station to be placed in the same location as the present Hose 2.

On October 31 we appointed Mr. James F. O'Dowd Wire Inspector to replace Mr. George Fogg who retired due to ill health.

On November 26 we perambulated the bounds of North Reading with members of the North Reading Board of Selectmen.

The Town has held several conferences with representatives of the Addison-Wesley Publishing Company regarding their construction of new facilities on land off South St. on Route 128 in Reading. The facts of this anticipated construction were presented before the Special Town Meeting in October, 1955, at which time the unanimous consent was granted to this Board toward encouraging this organization to settle in Reading.

At this time we wish to express our appreciation to the Finance Committee and all other town departments with whom we have worked throughout the year for their splendid cooperation. Also, we wish to thank the many committees appointed for the excellent job which they are doing.

Respectfully submitted,

LAWRENCE DREW, Secretary

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Reading:

The School Committee herewith submits its annual report.

The year 1955 has been a year of transition for the School Committee. In February of this year, Superintendent Arthur B. Lord became ill and was unable to carry on the duties of his office again. The whole community was saddened at his untimely death in July of the same year. In the meantime the Committee elected Robert F. Perry as Assistant Superintendent of Schools. After Mr. Lord's death, Mr. Perry was elected Superintendent of Schools. Mr. Perry had long been Principal of the Junior High School and is respected and admired throughout the Town and in educational circles all over the state as an outstanding administrator. This fine administrative talent, combined with the fact that he has lived in Reading a long time and is familiar with our problems and idiosyncrasies, has helped to prove Mr. Perry the ideal choice for the position.

The School Committee was already running short-handed, since Mr. Glover had resigned in December and Mrs. Milton had made known her intention not to seek re-election. Following the Town election in March the Committee reorganized with two freshman members.

The largest single project proceeding during the year, outside of the regular operation of the schools, has been the beginning of the development of the Birch Meadow recreation area. The Birch Meadow Study Committee, which had been set up at the 1954 Town Meeting, came into the 1955 Town Meeting with a very fine report on the site and specific recommendations for the future development of the area for school athletic facilities, public playgrounds, roads, parking areas, and so on. As a result of this report, the Town voted the sum of \$85,000.00 to begin the development of Birch Meadow. The School Committee had the supervision of this project and immediately set to work to carry it out. All of the Meadow was rough graded, and in Play Area I, on the map prepared by the Study Committee, drainage was installed, and the surface is receiving finish grading and seeding. A quarter-mile cinder track was also laid out. One of the biggest problems in operating our High School, with its enrollment of a thousand students, has been the lack of adequate outdoor play space. Because this area, which has been under development this year, is adjacent to the High School and presented fewest drainage problems, it seemed the logical place to start to remedy this lack. Besides the fact that transporting teams back and forth for practice and games at other playgrounds during the football and baseball seasons is expensive and unsatisfactory, we haven't enough outdoor space to develop a full athletic program for both boys and girls in the High School.

In the matter of buildings we are still plagued by a shortage of classrooms for elementary children. When school opened in September, enrollment was up one hundred sixty-nine over last year. In the annual

shuffling around to find space, the sixth grades are caught in the pinch. This year, besides the three in the Prospect Street School and one in the Pearl Street School, we have housed three in the Junior High School and two in the High School. From an educational standpoint this is not good practice, but no other solution presents itself at the moment. The 1955 Town Meeting set up a committee to explore and make recommendations for a school on the Forest Street site. The need for a new elementary school there has become increasingly obvious, and we hope the annual shuffling of children from one school to another as a policy of expediency will come to an end before too long.

The Maintenance Department of the schools has also been going through a period of transition. Robert Vars resigned as Supervisor of Maintenance, and Mr. Roderick Macdonald, who has for some years been Director of our Industrial Arts Department, has been doing the work on a part time basis. He is endeavoring to become familiar with the whole department and is gradually getting the problem under control.

Back in the difficult area of teachers' salaries we are by no means out of the woods, although the 1955 Town Meeting voted sufficient funds so that minimum and maximum salaries and annual step-ups could be increased. We must bear in mind, however, that Reading, along with every other town in the United States, must face an increasingly serious shortage of teachers each year, and about the only means of putting ourselves into a good competitive position in hiring and keeping good teachers is by offering more money. This doesn't mean, however, that we want to go on record as believing that straight across-the-board salary increases will automatically guarantee us an unending supply of good classroom teachers. The problem is not that simple; nor is its solution. We do believe that it is the individual classroom teacher who ultimately makes or breaks our school system, and we must keep that constantly **in mind**.

Our policy in facing this problem and every other one in connection with the schools must be decided by asking ourselves, first, "What do we want from schools in Reading?", and then, "How can we best provide this for all the children of Reading?".

Respectfully submitted,

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Reading:

I herewith submit my first report as Superintendent of Schools for the fiscal year ending December 31, 1955, it being the sixty-third in a series of such reports.

Two important and significant reports dealing with school problems were submitted to the Town Meeting members at their annual meeting in March. The first report was that of the committee appointed to study the problem of additional schoolhouse facilities established by the following vote at the Annual Town Meeting on April 5, 1954:

"Article 30. On motion of Philip R. White it was voted that there be and hereby is established a committee composed of seven members for the purpose of studying the matter of additional schoolhouse facilities, such committee to consist of one member from the School Committee, one from the Planning Board, one from the Board of Public Works, one from the Finance Committee, such members to be appointed by their respective Boards and Committees, and three members to be appointed by the Moderator from the Town at large, and such committee to report at subsequent Town Meeting to be held not later than the Annual Town Meeting of March, 1955."

The members of this committee included the following citizens:

Frank Zeo, Chairman	Newell H. Morton (School Committee)
Eleanor C. Bishop, Secretary	L. Lloyd David (Planning Board)
Irving C. Austin	Kenneth R. Johnson (Public Works)
	John R. Kay (Finance Committee)

The task of this committee was to study the matter of additional schoolhouse facilities, a problem that faces thousands of communities throughout the country as the result of rapidly expanding school enrollment. As a result of this study, which was well documented with statistics dealing with local population growth, rising birth rates, enrollment projections, and distribution and location of children in the town of pre-school age, the committee summarized their recommendations as follows:

- "1. New **ELEMENTARY SCHOOL** — Authorize money for the preparation of plans and surveys for the construction of an elementary school of approximately 16 rooms to open in September 1957.
2. **SCHOOL BUILDING COMMITTEE** — Establish a School Building Committee for the purpose of the construction of an elementary school.
3. **SITE SELECTION COMMITTEE** — Establish a Site Selection Committee to study and investigate suitable sites in the Town for additional schools where growth is expected.
4. **OLD HIGH SCHOOL** — Exclude the Old High School from all future consideration in school plant planning.
5. **LOWELL STREET SCHOOL** — Abandon the Lowell Street School upon opening of the recommended new elementary school.
6. **ANNUAL CENSUS** — Make an annual census of children of pre-school age.

7. ENROLLMENT PROJECTION — Revise yearly the school enrollment projection and related statistics."

Under Articles 31 and 32 of the Warrant for the Annual Town Meeting of March 21, 1955, the Town voted to establish a building committee and appropriated \$10,000.00 for consulting engineers and architectural services, preliminary plans, and surveys for the construction of an elementary school on a site located off Forest Street near the Birch Meadow area. The members of this building committee are as follows:

Edward Palmer, Chairman

John Austin, Secretary

William Burpee (School Committee)

Emerson Willard (Finance Committee)

Kenneth Johnson (Board of Public Works)

William Florence

Thomas Galvin

This committee has been at work since May 31, 1955. It selected an architect, visited many elementary schools throughout the Commonwealth, consulted with the Massachusetts Building Assistance Commission, studied and approved preliminary plans for an elementary school of 18 classrooms with auxiliary facilities, and will submit its report at a special Town Meeting scheduled for January 30, 1956.

The second valuable report was submitted by a special committee known as the "Birch Meadow Study Committee", appointed pursuant to a vote of the Town of Reading at its adjourned Annual Town Meeting held on March 22, 1954. This committee was appointed to make a comprehensive study of the future development of the Birch Meadow area relating to school athletic facilities, playgrounds, access roads, etc., and consisted of the following citizens:

William Dolben, Chairman; Charles L. Richardson, Jr., Gilbert Lothrop, William Herrick, Lawrence Cate (Capital Expenditures Committee), Carl Pitman (Finance Committee), Harold Kilgore, Jr., (Board of Public Works), Robert Turner (School Committee).

As pointed out in the report of the School Committee, a start has already been made in this long-range project for development of Birch Meadow which, when completed, will provide the Town and the School Department excellent and adequate playing fields and facilities for outdoor sports and recreation.

ENROLLMENT

The schools opened in September with an enrollment of 3,332 pupils, an increase of 169 pupils over the enrollment as of October 1, 1954. As predicted in the report of the Committee for Additional School House Facilities, the elementary schools were 6 classrooms over capacity. In September 1956 it will be necessary to find space for two additional classrooms of elementary school pupils, making the elementary school enrollment 8 rooms over the capacity of the present school plant facilities.

As of December 1, 1955, the enrollment in the various school buildings was as follows:

Senior High	1039 (includes 48 in Grades 6)
Junior High	645 (includes 85 in Grades 6 and 10—Special Education)
Highland	392 Grades 1-5
Eaton	563 Grades 1-5
Pearl Street	471 Grades 1-6
Prospect	103 1 Grade 5, 3 Grade 6
Lowell Street	120 Grades 1-4

3,333

STAFF

Most people today understand that the public schools are faced with two serious problems as the result of the pressure of increased enrollments. School housing and the shortage of qualified teachers are vying for first place as the number one problem. We shall probably be able to supply the bricks and mortar to build school houses, but bricks and mortar do not make a school. Far more than anything else, the quality of teachers and of teaching will determine the quality of education in the years ahead. To secure good teachers Reading must compete with other school systems in a market of personnel where the demand far exceeds the supply.

The present personnel of the School Department includes 134 teachers (39 men and 95 women), 5 Principals, 5 Directors, 2 Nurses, 1 Physician, 10 Secretaries, and 21 custodians and matrons, a total of 178. This growth of our School Department is obvious when these figures are compared with the 134 people necessary to staff our schools 5 years ago.

There were 30 new teachers on our staff when school opened in September as the result of vacancies created for the following reasons:

1. Fifteen teachers resigned to accept teaching positions in other communities at increased salaries.
2. Six teachers gave up teaching for various reasons.
3. One teacher was drafted for military service.
4. One death.
5. Seven teachers were appointed to fill positions because of increase in enrollment in the schools.

THE WORK OF THE SCHOOLS

Reading has long been proud of the work of its schools. It has been equally proud of its good town government, two factors which make the town a good place in which to live, a desirable place to bring up a family. Parents and citizens have been generous in their support of the schools, as indicated by the wide participation in Parent-Teacher activities as well as a willingness to support the school program financially.

To summarize the work of the schools during the past year, I refer you to the reports submitted by the Principals, the Director of Guidance and the Director of Health.

In conclusion, the Superintendent wishes to express his appreciation to the School Committee, principals, teachers, secretaries, custodians, cafeteria employees, and the many groups associated with the schools, for their helpful cooperation, understanding and advice during the year. It is a real privilege to be associated with so many fine people, but in particular with members of the School Committee, who give so generously of their time and energy to the work and service of providing the best possible educational program for our boys and girls within the limits of our resources.

Respectfully submitted,

ROBERT F. PERRY,

Superintendent of Schools

REPORT OF THE HIGH SCHOOL PRINCIPAL

In this brief report on the senior high school it is obvious that not all phases of the work of the school can be covered. However, an attempt is made to set forth what are perhaps some of the important essentials.

To begin with, the new building inspires both pupils and teachers to do their best work. Also the new building is a constant reminder to individuals and groups of parents as well as non-Reading visitors that the School Committee and people of Reading take an intelligent and purposeful attitude toward education. The pupils are proud of their new school with all its modern facilities, and this attitude is reflected in the fine spirit of the student body.

When the new high school was opened in September, 1954, we were faced with the problem of expansion, not only because the 9th grade was added but also because with adequate space expansion of the curriculum not possible in the old high school now became possible. This, of course, meant the expansion of the teaching staff and also involved one of the major, if not the major problem facing a Superintendent. That there exists and probably will continue to exist a vast teacher shortage is well known or should be to every citizen. Normal replacement of teachers under these conditions is difficult enough, but when a rapid expansion of the teaching staff enters the picture, the task of recruiting suitable teachers becomes heavy indeed. However, through perseverance, much visiting and correspondence, searching and inquiring, plus good fortune, a very adequate addition to the old staff was found. These newly added teachers have, on the whole, made a satisfactory addition to our staff. Due to budget limitation some of our new teachers were without previous classroom experience. All had courses in education and most of them had a few months of practice teaching. These new teachers have been helped and trained during the past year by the older members of our staff and through the medium of section and full staff meetings.

Our basic staff, department heads and section leaders, I feel, are teachers of superior qualifications. Because of this key group of teachers which have been with us a number of years the Reading High School has been able to maintain its strong position in New England as an institution of learning. Reading has for many years maintained an enviable record insofar as college entrance by its graduates is concerned. Every year our graduates' names appear on the rolls of honor students in the better institutions of higher learning throughout the country. Also our graduates make good in the business world and professional and social life of the nation.

There still exists among our pupils as well as, unfortunately, among our adults a lack of understanding of the difference between freedom and license. It is the over-all effort of our staff to set our pupils straight on these matters by increasing their understanding of the responsibilities which they face after leaving school. This is done through various approaches, teaching the enjoyment of the arts, reading beyond regular class assignments, listening, viewing reception through mass media, even research. We feel and try to inculcate in our boys and girls that systematic education must not stop with graduation. To help in developing this concept we have a well-developed film program, talks by outside speakers, a systematic bi-monthly round table and lecture program provided at no cost by a group of experts representing nearly all trades, jobs, professions, and vocations. Pupils have here an opportunity to see what lies beyond graduation and how to prepare for it.

Health education and physical education are provided for quite adequately. Because of the reorganization of the duties of the physical education staff and coaches a smoother operating program has resulted. Through the regular medium of physical check-up by the School Nurse, School Doctor, and Dean of Girls, the health of our pupils received reasonable attention. Our cafeteria, where good food in variety is served in clean surroundings, is an aid to good health.

Specifically in the field of science an effort by the teachers is made to keep abreast of the new atomic development. In the not too distant future we might consider adding a course in the field of electronics. The elements of this field of electricity, sound, and projection might well become a part of our now well developed industrial arts program.

The home economics course, formerly handicapped by inadequate facilities, is now developing nicely in its new quarters under the direction of two experienced and well trained women. It is a popular course and growing in numbers. Various areas of clothing, foods, homemaking, and child care are covered.

Our business course continues to be strong, and at least the upper half of our graduates from this course have no difficulty in locating jobs and making good as secretaries and office workers. As in the past, we have inquiries for our girls from substantial firms long before graduation. While the upper half of this group is placed in the better jobs, many of the remainder of this group find or are placed in adequate jobs. Usually this group, the lower 50%, take further training and then go on to better positions.

Many of our girls go into nursing and because of the demand for nurses we have tried to encourage girls to go into this necessary occupation through the medium of a new course in Anatomy. This course is very well taught.

The Art course is expanding and is becoming more effective in the new Art center. Here, future commercial artists can get a start. Pure art for the sake of intellectual growth and appreciation is being taught. Pupils get some practical experience in decorating in the school for parties, dances, and important events.

Our Yearbook, THE PIONEER, a product of some fifty pupils under the guidance of the English and Art Departments, has for the past several years won first National place with the exception of 1953, when THE PIONEER placed second in its class (offset printing). Editors, cartoonists, profile writers, essayists, dummy arrangers, and other departments are all student staffed. The financial aspects of the sizeable project are handled by still another group under the guidance of another member of the staff.

The out-of-door athletic facilities, not yet ready, should afford additional opportunities for athletic exercises and competition. Field hockey, LaCrosse, additional track and field sports are a few that can be contemplated. These added sports when they become a reality will entail further budget adjustments and probably call for addition, not so much with relation to personnel, although this may be the case, but rather for equipment and team transportation to other schools. Of course, we are far better off now than in the old school for we do have quite a sizeable out-of-doors area for physical exercises for both boys and girls.

Library. We are very fortunate to have a fine, intelligent and hard working librarian. She has arranged the library in such a way that it is not only an attractive place to conduct research but it is highly functional. Each year more volumes are needed to replace wornout copies of books, and, of course, there is need to expand the facilities by adding more volumes. The librarian conducts library education classes throughout the year for all grades, especially freshmen, and even the 6th grade has been included. Some 15 pupils have been selected as library assistants.

Number of volumes in library	2415
Circulation—Fiction	3149
Non-Fiction	3484
<hr/>	
6633 for school year	

Music. Instrumental music, especially the band, is showing marked improvement. The vocal aspects of our program are just now showing signs of improvement and I hope and expect that by June 1956 we shall be well under way toward having acceptable singing groups. The band concert given last Spring was a fairly good performance and seemed to forecast better things to come. A small but rather active dance band and string ensemble are indications of more participation by pupils in this field of education.

The school's newspaper which comes out eight times a year, is well conceived and well done. Though only a few months old, the paper rates well with other local high school newspapers. This paper is financed entirely out of high school funds.

Given on our new stage, the annual high school play gained importance because of the new facilities, and for the first time in the history of Reading High School we were in a position to invite the Drama Festival to our school. Eight schools participated in the festival, which was a success and enjoyed by many pupils and parents. Groups of one-act plays have also been produced and more play production work is contemplated.

The custodians, a most important group of people in any school, are doing a good job. Some readjustments in personnel affected last fall have improved an already fair arrangement so that now the building receives good care as to cleanliness, minor repair, and comfort for pupils and faculty.

Number of Graduates, June 1955	171
Number of pupils in 8th grade, September 1955	278
Probable enrollment, September 1956	1,017

Respectfully submitted,

RUDOLF SUSSMANN, Principal

REPORT OF THE PRINCIPAL OF THE WALTER S. PARKER JUNIOR HIGH SCHOOL

Enrollment — December 1, 1955:

Remedial Workshop	10
Grade 6	85
Grade 7	267
Grade 8	283
	<hr/>
	645

Grade 8 Electives:

Business Training	86
French	33
Latin	45
Home Economics	36
Shop	72
Study	11
	<hr/>
	283

Instruction

1. The following standardized tests have been used during the year:
 - A. Otis Quick Scoring — for rechecking I Qs.
 - B. California Short Form — Grade 6.
 - C. Differential Aptitude Test — Grade 8.
 - D. Cooperative Tests in General Science — Grades 7 and 8.
 - E. Curriculum Tests in Mathematics — Grades 7 and 8.
 - F. Stanford & McCall Spelling Tests — Grades 7 and 8.
2. Since each Sixth Grade group in our building came from a different elementary school this year, it was administratively expedient

to integrate them into the Junior High School. By departmentalizing the Sixth Grade it was possible to have regular Junior High teachers take over certain Sixth Grade classes and vice versa. As a result most teachers were able to confine their teaching to subjects in their specific fields. This prevented a situation in which teachers would have been called on to teach subjects for which they had no aptitude or liking, or alternatively, hiring an extra teacher. This arrangement made possible a higher general level of teaching.

3. The Music department is continuing a logical expansion of its field in our school. Mr. Oliver has started a Junior High band designed to function as a separate unit. At present it is of fairly recent origin, but its progress to this point indicates a strong organization based on the interests of musically inclined pupils. Its 40 members play reasonably well after a limited number of rehearsals and should contribute to a stronger band in the Senior High in the future.

Last spring the combined Boys' Chorus and Girls' Glee Club presented THE PIRATES OF PENZANCE by Gilbert & Sullivan in costume, both to the school and as a paid evening performance. Their program was very creditable for their age level.

4. On early closing Thursdays the afternoons are devoted to meetings with Grade or Department chairmen. Meetings of the same groups, as well as general staff meetings, are held on other Thursdays. The grade meetings are taken up with plans for group guidance during home room periods and with problems of individual pupils. The department meetings are concerned with curriculum revision, teaching procedures and techniques, and establishing satisfactory tests. In all types of meetings we have in mind the problem of orienting and integrating new teachers, which in itself takes considerable time.

Miscellaneous

1. Four meetings of the Parent-Teacher Association were held during the year. One of these is in the nature of an informal afternoon tea, whose primary purpose is to give parents an opportunity to become acquainted with the school and the teachers. It also affords girls in the Home Economics department with valuable practical experience. The three other meetings take place in the evening. After a brief business meeting some phase of school work or activity is explained and demonstrated to the parents, following which parents have an opportunity to visit teachers.

2. With the exception of items included in the 1956 budget the school is in fine physical condition and does not give the impression of being as old as it is. Work done this past year includes painting second and third floor corridors, health room, and the old health room office, and retubing one of the boilers.

3. The Remedial Workshop, ably conducted by Mrs. Garfield, occupies the Conference room and old health room office. The old bicycle room, under Room 101, is being converted to a Mechanical Drawing and planning room. Classes will then be held in every available room of the school except for the Health Room and the Library, the latter being used as a home room.

Respectfully submitted,

ALBERT H. WOODWARD, Principal

ANNUAL REPORT OF THE GUIDANCE DEPARTMENT FOR 1955

Submitted by Ara A. Karakashian

During 1955 the Guidance Department has worked in various ways to further its overall aim of establishing new, and improving existing facilities for focusing attention on individual pupils in our schools so that each pupil might be helped to grow at an optimum rate. ..Primarily because of personnel limitations progress has been much slower than the Director desires.

Under existing circumstances and with growing high school population now in excess of 1,000 pupils, an attempt is being made this year to accomplish some guidance through group procedures. At the junior high school level where provisions were made previously for adequate home room programming and for frequent staff meetings for the planning and implementation of common projects, there appears to be some promise of effective work in this area. At the high school level, for lack of a better solution, an attempt has been made to meet the needs of pupils in three specific areas. A surevy conducted last year revealed a desire on the part of many pupils for information and help in arranging workable study schedules and in developing more efficient study habits. To this end the Wrenn Study Habits Inventory has been or is being administered to all 9th and 10th grade pupils during home room periods on Wednesday afternoons. The purpose of this instrument is to help students gain insight into their own study habits and to see if these habits are good or bad. Instruction sheets and guides have been provided homeroom teachers for organizing group discussions after the inventories have been scored and for assisting pupils in arranging equitable study schedules.

In the same way the Mooney Problem Check List has also been or is being administered to all 9th and 10th graders for a four-fold purpose. This instrument serves as a gross screening device for picking out and referring pupils who appear to be burdened with a multitude of problems to individual counseling and possibly further referral. It serves to point out to pupils and teachers alike, problems that are commonly shared by teenagers and provides a guide for group discussions that pupils might benefit from.

The Kuder Preference Record, an interest inventory, is being administered to the 11th graders to stimulate constructive thinking and planning of educational and/or vocational nature. Home room teachers have been provided with instruction sheets and guides for helping pupils interpret scores and in locating and evaluating significant vocational information.

The work that was begun last year in evaluating and modifying the testing program in our schools is being carried on. Sample specimens of various newer intelligence and other tests have been obtained and are being studied by supervising principals of the elementary schools to see where and when substitutions might be made to improve the kind and quality of the data we wish to obtain on our elementary pupils.

This year again was a "catch-up" year as far as testing at the high school level was concerned. For purposes of obtaining comparable scores for guidance and replacement purposes the Otis Gamma Test of Mental Maturity and the Cooperative Reading Comprehension Test (C1-Lower) were administered to all pupils in grades 9, 10 and 11. These tests have all been scored and results have been or are being transcribed on permanent record cards for benefit of classroom teachers and administrators. As a result of the Reading Tests two groups of freshmen are now receiving special help in Reading in addition to work done in their regular English classes.

Eleventh grade pupils in the high school and 8th grade pupils in the Junior High School have taken the differential aptitude Test Battery and soon will be having counseling interviews in which their scores will be interpreted to them. Eighth-graders will be assisted in selecting integrated programs of study for their 4 years in high school while post high school education and vocational plans will be stressed with eleventh graders.

In May and again in September of this year we cooperated with the Educational Testing Service in the final standardization of their new School and College Ability Tests. At both times these tests were administered to all 10th, 11th and 12th grade students. We have already received the scores for the tests administered in May, and preliminary examination indicates that they will be useful to us in the future since these tests are part of a program initiated by Educational Testing Service to provide a standard instrument for measuring development of academic ability from grade 4 through grade 14.

In cooperation with the Woburn office of the U.S.E.S., fifty-four non-college, non-business senior boys and girls were given the General Aptitude Test Battery during October and November. When results of these tests are received they will be used in vocational counseling of these pupils.

Last May, 40 juniors were encouraged to take the Scholastic Aptitude portions of the College Entrance Examination Board Tests as a means of helping them think more realistically of their college choices. To date almost 60 seniors have signed up for the C.E.E.B. tests. Representatives of various institutions of higher learning have visited and are visiting the high school to confer with interested students. Eleven seniors took the special scholarship examinations sponsored by the C.E.E.B. in October.

Juniors and seniors in College Preparatory English Classes have been given the Nelson-Denny Reading Test this year for a better evaluation of their reading abilities in comparison to college students. As in the past, Cooperative Achievement Tests in appropriate subject matter areas were administered last spring and will be administered again in the Spring of '56.

Through subscription to the Chronicle Guidance Service and by making selective purchases from other sources, our library of vocational and related materials continues to improve. This year as in the past, a series of well organized Occupational Conferences has been arranged in cooperation with Roland Darling and Northeastern University. In

addition, programs on the Armed Services and other pertinent subjects have been arranged.

The screening of retarded elementary pupils for possible special class placement will get underway soon. A relatively large number of pupils were tested by Dr. Foote and the traveling clinic last winter with home visitations and follow-ups being made by Mrs. Clewley and myself. Several conferences were held subsequently with elementary principals and parents, and as a result we now have one special class of 10 pupils ranging in age from 11 to 14 in the Junior High School. As the school population continues to grow, the need for more classes of this type will become more pressing and it is likely that we may have to provide for such additional classes at the primary and secondary levels in the relatively near future.

Steps have been taken to provide a more adequate and continuous form of Cumulative Record. Meetings have been scheduled with elementary principals and teachers to discuss and decide ways and means whereby the new folders can be used most effectively.

Little or no work has been done in some areas that need much attention. Job placement and follow-up of graduates and drop-outs is still very much a "catch-as-catch-can" proposition. Statistical analysis and scientific evaluation of test results and other procedures are still nothing much more than an unfulfilled wish. Systematic record-keeping and adequate follow-up of counselors remains a practical impossibility. Progress is being made in some areas but many problems will remain unsolved or at best partially solved until the guidance staff is adequately manned.

ANNUAL REPORT — SUPERVISOR OF HEALTH

Margaret B. Clewley

All essential health services — testing of vision, hearing and physical examination, with the resultant notices and parental conferences — were completed for the year ending June 1955. Vision testing with the Massachusetts Vision Tester was done in the Senior High School for the first time. Due to lack of a room in which to function, previous testing had been done by the old Snellen E card, hung in the classroom, a totally inadequate procedure. Audiometer tests were not attempted in High School.

The program of inoculation with Triple and Double Antigen (Diphtheria, Pertussis, Tetanus) was planned and clinics held in all the elementary schools in the spring. Four clinics for infants and children were held in the Town Building, from March into June.

The organization, administration and physical carrying out of the clinics for the giving of the Salk vaccine for Polio was a highlight of the year. The short time for preparation and multiplicity of details required, imposed a terrific strain and necessitated hours of work.

The Dental Clinic is a function of the Board of Health. Last year we cared for 234 children, several visits for each child.

The vision testing for this year is completed with the exception of a very few absentees to be picked up later. The parents of all pupils

failing the test are notified and examination by an eye specialist recommended, unless the records show the pupil to already have the best correction possible.

No. of pupils failed	187
No. of parents notified	132
No. already seen by eye specialist	58

A complete report is submitted to each school so that the teachers may be informed. After the report from the doctor is entered upon the pupil's health card, it is put in the pupil's individual folder. In the absence of a report showing that the pupil has received care, a follow-up will be instituted in the form of a visit, a letter, or whatever seems best in the individual case.

All the children who are tested annually due to a known hearing deficiency have been done, plus a group requested by teachers. The Eaton and Highland Schools are completed and in January the program will be continued to completion. The method of reporting failures, follow-up, etc., is the same as with vision.

The practice of notifying parents of children due for a physical examination was resumed this year. The parents are thus given the opportunity to have the examination done by the family doctor if they wish, in which case they are furnished with a record form to be filled out by the examining physician and returned to me. This procedure is recommended by the State Department of Public Health. There is no quarrel with the philosophy behind it but it results in more paper work, postage, and many parents who do not follow through and have the examination done.

It has been a pleasure to work with Dr. Wakeling. The technique of the examination is good, complete, and his manner is pleasant; he likes the children. The number of defects is few and strikingly fall into two classifications — dental and an accumulation of wax sufficient to occlude seeing the ear drum, a condition easily remedied, which may impair hearing. I have devised a form for reporting this condition. Only occasionally do we have a family in Reading who refuses to recognize the need of correcting physical defects.

The addition of Mrs. McKenney to the health staff has been of great advantage. It has enabled us to complete the vision testing program in the first term of the school year, as well as be well through other phases of the program. There has been more time for home visiting during the hours when the child in question is in school; this is of great advantage. There has also been more time available for conferences in the classroom; this will be even more so in the next term of the school year.

Mrs. Lazenby continues to help with her high quality of service. The demands on her time are so many that it is difficult to complete her secretarial duties. Some days there is a constant stream of pupils requiring attention, and she spends much time helping them, 'phoning home, getting taxis, and so on.

Sincerely,
MARGARET B. CLEWLEY, Director of Health

REPORTS OF ELEMENTARY SCHOOLS

SUMMARY

HIGHLAND SCHOOL

Miss R. Hilda Gaffney, Supervising Principal

The Highland School staff has the largest turnover in teaching personnel of all of our schools. Six of the thirteen teachers were new to the staff when school opened in September. However, we are fortunate to have obtained the services of new teachers who are doing excellent work in their new positions. The large number of changes on the staff that have taken place in recent years has been disturbing to parents and to the school administration. We hope that another year will find the staff intact and continuing on with the fine work they have begun this year.

In June 1955 the faculty, parents and boys and girls of the school were saddened by the death of Miss Dorothy Cronin. Miss Cronin had taught in Reading for twenty-two years. She was an outstanding teacher and had the affection and respect of parents, pupils and all who worked with her.

The Highland School no longer has room to take care of the sixth grade pupils. Pupils in this district of this grade are housed in the Junior High School and the Senior High School. Next year it will be necessary to transfer in addition to the sixth grades one room of fifth grade pupils. The High School would be a desirable location for these fifth grade children if space is available, since this would make a unit of three Highland School district pupils working together at this school.

The school has made excellent progress in music this year, having developed a good elementary school orchestra, and classes for beginners in the stringed instruments. In May the pupils presented an original 18th Century Musicales, which they called "A Mozart Festival". Much credit was due to Mrs. Jean Bennet, Mr. Oliver, and the mothers of members of the orchestra for their fine work in this production.

The Highland P.T.A. is an active and enthusiastic group. This group again sponsored a Christmas Fair and the "Highland Fling". Money raised by these affairs is used to support many of the special activities carried on in the school. Over 200 books have been added to the Wakefield Library, and mothers have generously given their time to serve as school librarians.

On February 17, 1955, a serious breakdown in the heating system made it necessary to close the school for a period of three weeks. Prompt and efficient action by the School Committee resulted in the installation of a completely new oil burning boiler which made it possible to open school again on March 13th.

During the summer two classrooms and all the basement sections were painted. Also a new stainless steel sink and automatic dishwasher were installed in the cafeteria.

PEARL STREET SCHOOL

Mr. Philip F. Lucey, Supervising Principal

ENROLLMENT. In December 1954 total enrollment was 499. In December 1955 total enrollment is 482. The enrollment per room average is 31.13. In 1954 twenty under-age children were allowed to enter on examinations. In 1955 no examinations were given and first grade classes dropped from a 35 average to one of 27. This could cause a very large first grade registration in 1956 making it necessary to add an additional first grade class. The crowded classes at the present time are the two fifth grade rooms with 36 pupils each, and one sixth grade classroom of 38. There will be no space available for a sixth grade classroom in this building another year.

During the year the teachers used the early closing days to good advantage. Parent-Teacher Committees worked together on the revision of the report card. The staff worked on the school-wide study of our Language Arts program and the selection of a suitable textbook for this work. The Parent-Teacher conferences have continued to be popular and helpful, as well as the program for special help carried on during this time.

The Pearl Street Parent-Teacher Association continues to be an active and well organized group. Among the activities carried on last year were the following:

Sponsor of Youth Organizations, an afternoon Discussion Group, Hallowe'en and Christmas parties for the children, a banquet for the teachers, taxi expenses for children attending the dental clinic, scholarships of sixty dollars each for three teachers, a P.T.A. play, Christmas trees for each classroom, a 35-MM camera and film strip projector, and three new record players. Two lectures were sponsored, one given by Dr. Louise Bates Ames, on "Child Development", and another by Dr. Mark Murfin, of Boston University, on the topic "Your Child and Mine".

The school has received the National Safety Council Award for the fourth successive year. During the year two major safety assemblies were held.

JOSHUA EATON SCHOOL

Mrs. Eleanor M. Skahill, Supervising Principal

ENROLLMENT. The enrollment at the Joshua Eaton School continues to increase. Each year for the past three years we have added one additional classroom to our school unit. This coming year we will again increase one full classroom. The increase will be at the fifth grade level, making four fifth grade classrooms to accommodate 135 children enrolled in the present fourth grade.

This enrollment increase will not change the classroom set-up at the Eaton School but it will change the picture at the Prospect Street School. In the Prospect Street School next fall there will be two fifth

grades and two sixth grades. This means that another sixth grade class from the Eaton School district will go to the Junior High School in September 1956.

It may be noted here that we have had many children enrolling in our school since the opening of school in September. In checking the classroom registers for the period between October 1 and December 1 we find that, for this period only, we have had a 45% increase in enrollment over that for the same period last year. The actual number of pupils registered during this two month period was 48, or one and one-half classrooms! All since the opening of school in September!

INSTRUCTIONAL PROGRAM — Curriculum. A major change in the elementary school curriculum for this school year is the adoption of a new language arts textbook. The GOOD ENGLISH SERIES, published by Laidlaw Brothers, was chosen.

This adoption was the culmination of a period of intensive study by the elementary school faculties. Seven leading language arts programs were studied and evaluated. Each program was carefully checked against a critical evaluation sheet listing the many points to be considered when studying a good language arts program.

When the field was narrowed to three choices, representatives and educational consultants of these three companies came to Reading and talked with the elementary school teachers. Shortly after this meeting a re-evaluation was made and a final choice was expressed. The texts were purchased and are now in use.

Another phase of our work this year deals with the matter of keeping individual pupil records. As time progresses new tests are adopted, different forms of reporting pupil progress are accepted, new data is collected about individual children. A cumulative record folder that was adequate ten years ago becomes inadequate today.

Mr. Ara Karakashian, as Director of Guidance, has suggested the use of a new cumulative record folder. These will be started in the first grade this year. An individual folder includes much valuable information on each child, information such as achievement level, mental ability, interests, personal deficiencies and strengths, emotional and social adjustment, significant family relationships, health, scholarship record, and the like. The starting point for instruction is the discovery of the child's needs as indicated by materials available in such a record well kept.

In keeping with this same goal of knowing our children better, a committee is at work reviewing our testing program. New tests have been made available to us to help us in our work.

In addition to the regular instrumental music programs of the school, a group of 20 pupils is now organized in a beginners class for the study and playing of the violin. The group has made amazing progress to date.

Through the help of the PTA a central library has been organized and supplied with books. This library is in addition to the excellent classroom libraries in each room.

CAFETERIA. One difficult aspect of the Eaton program is the lunch period. A tight schedule has been arranged so that the entire school group may be fed between the hours of 11:25 and 12:45 daily. Our problem is one of large numbers of children remaining at school for lunch (approximately 82%-87%) and the fact that the cafeteria seats but 130 children.

The children eat in three shifts, the second and third graders going to lunch at 11:25 and the fourth and fifth graders at 11:50. The first grade has the cafeteria by itself and eats between 12:15 and 12:45.

The children have adjusted well to the cafeteria system, but it is crowded and the schedule is tight. It would be a great improvement if we could have but two lunch shifts. This might be a possibility if the new roll-away cafeteria tables and benches could be procured for the use of the children who bring their own lunches from home. These could be used in the gymnasium and would free the cafeteria for the use of the children buying school lunches only.

The school continues to enjoy the fine, loyal support and cooperation of the parents through the activities of the Parent-Teacher Association. The many activities which are carried on with the help of this organization benefit parents, children and teachers alike and could not do so without the feeling of partnership which exists within this group.

SCHOOL CLINICS

Dental Clinic — Wednesday, Thursday and Friday
Eaton School — 9:00 a. m. to 1:00 p. m.
Immunization Clinic — Annually by appointment

SCHOOL ENTRANCE REQUIREMENTS

To be eligible for admission to Grade I a child must have reached the age of five years and eight months on or before August 31st of the entering year. No provision is made for examination.

Upon entering school each child is required to present a birth certificate and a certificate of vaccination, or in the case of unsuccessful vaccination, a statement from a doctor certifying that three attempts to vaccinate have been made, all of which have proved to be unsuccessful.

Registration of children entering school in September is held in the different schools during the month of May, announcement of exact time appearing in the **READING CHRONICLE** a week or two before registration.

ANNUAL REPORT

OF THE

BOARD OF PUBLIC WORKS

OF THE

Town of Reading, Massachusetts

for the year ending

December 31, 1955

REPORT OF THE BOARD OF PUBLIC WORKS

To the Citizens of Reading:

The Board of Public Works herewith submits its annual report for the year ending December 31, 1955.

The Board of Public Works has jurisdiction over the following listed departmental subdivisions:

Administration, Engineering Division, Water, (including supply, distribution, construction and maintenance), Highway Construction and Maintenance, Removal of Snow and Ice, Sidewalk Construction and Maintenance, Storm Drain Construction and Maintenance, Town Dump, Sewer Construction and Maintenance, Sewer House Connections, Parks care and maintenance, Playgrounds care and maintenance, Chapter 90 Construction and Maintenance, Equipment purchase and maintenance, several phases of Betterment construction and billing, Pensions of former employees of the department, Bridges care and maintenance, Garage care and maintenance, Public Parking areas care and maintenance, and other special and pertinent subdivisions. Each of the above divisions entails many detailed operations which, it is felt, are too numerous to list herein.

The Board of Public Works is also, ex officio, the Board of Survey, and as such have jurisdiction over all proposed subdivisions and developments. This includes consideration of the proposed layout of streets for lines and grades, and their effect on abutting lands and the Town as a whole, and of the installation of utilities. Also included in the responsibility to determine that all prescriptions placed on the development by the Board of Survey and the Board of Health are carried out.

The major problems which faced the Board of Public Works during the year lay in the fields of organization of the department, sewerage, drainage, and assessment of betterment and other charges for sewer construction and usage.

On January 6, James T. Putnam was appointed Superintendent of Public Works, a position he had been filling as Acting Superintendent since May 28, 1954. Other changes in personnel followed including the promotion of Ernest R. Watson as assistant superintendent.

Subsequent to these promotions, the Board reviewed the organization of the department in detail. It was apparent that administrative personnel of the department were suffering from an intolerable work load. This was determined to be due to the vigorous growth of the town over the past ten years, and the resultant increase in the magnitude of the overall activities of the department. In consequence this Board recommended to the Personnel Board that a change be made in the job description of the assistant superintendent to upgrade the position and increase the scope and responsibility of his duties. This Board also recommended to the Personnel Board that a post known as "Administrative Assistant to the Superintendent" be created, in order to relieve the Superintendent of a large number of routine administra-

tive tasks, and give him more time for planning and supervision of the activities of the department.

The problem of sewerage has been of major concern to the Board. As of December 31, 1955, petitions for main sewer extensions totaling over \$400,000.00 in cost were on file with the Board. These are applications presented by groups of citizens seeking relief from insanitary conditions caused by overflowing private cesspools and/or septic tanks and leaching fields. The Board has conferred with the Finance Committee and the Capital Expenditures Planning Committee on several occasions about the problem.

The sidewalk construction policy as set forth in the 1954 annual report of the Board was strictly adhered to. All voluntary sidewalk applications on hand were completed, and a start was made on continuous run or block system construction. A contract was let in the Fall of 1955 for block construction with bituminous concrete sidewalks on Woburn Street, which was interrupted by inclement weather. This contract will be completed in the Spring of 1956. It should be noted that this program resulted in a marked saving in sidewalk construction costs.

Drainage problems continue to arise, as dwelling houses continue to be constructed in less desirable locations in the outskirts of town, where presently no storm drains exist. Particular attention is being paid by the Board of Survey to drainage problems, to insure that insofar as is possible the drainage of the town will be improved by development. A planned program of storm drain installation has been carried on during the year with resultant alleviation of many bad drainage conditions.

The development of Birch Meadow High School Athletic Field resulted in the flooding of some properties by the Aberjona River headwaters, locally known as Birch Meadow Brook. Major channel and culvert improvements will be necessary to solve this particular problem, as anticipated by the Birch Meadow Study Committee report.

With respect to charges for betterments and other purposes the Board reviewed its policies with the following results:

1. Charges for street, curbing and sidewalk betterments were found to be in accordance with existing statutes.
2. Charges for sewer betterments were reviewed and increased from \$1.00 per front foot to \$1.25 per foot. By the end of 1955 these new charges were determined to be inadequate. The act creating Reading's sewerage system states that 30 per cent of the cost of the system shall be levied against abutters and 70 per cent against the tax levy.
3. Charges for sewer house connections were revised in accordance with the Act setting up the sewerage system. The abutter is now required to bear the full cost of the extension from the main in the street to the house. Previously he had been required to bear the cost from the street line to the house.

4. Sewer service (or rental) charges were increased, effective January 1, 1956. It was determined by the Board that existing charges were insufficient to meet rising costs of construction and maintenance.

With the revisions above noted, and with further upward revision of the sewer frontage assessment in 1956, this Board, in its opinion, will have assessed betterment and other charges in full accord with the letter and spirit of the various acts enabling these charges to be levied.

It should be noted that the Board had planned to review present maintenance policies and schedules during 1955. Reviews were held and some equipment necessary for storm drain and sewer cleaning equipment was recommended by the Superintendent. However, in view of the work load imposed on administrative personnel, together with the other actions and reviews above described, a total review of maintenance policies and schedules and of the working of the Road Machinery Fund and Road Machinery operating account were deferred until 1956.

The major problems foreseen for 1956 are:

1. An increase in the amount of main sewer construction, to eliminate existing insanitary conditions in many sections of Reading.
2. Continuous review of the adequacy of existing capital outlay programs as compared with the rapid growth of Reading and resulting need for necessary utilities.
3. A review of the adequacy of the present water supply works.

The Board of Public Works has endeavored to cooperate with other Town Boards and Departments during the past year and wish to acknowledge the cooperation extended to them by other Boards and Departments.

The Board also wishes to commend the many conscientious employees of the Department for their continued loyalty and cooperation. Reference is made to the report of the Superintendent for a more detailed list of Departmental accomplishments by division.

Respectfully submitted,

HAROLD D. KILGORE, JR., Chairman
COLEMAN J. DONAHUE, Secretary
KENNETH R. JOHNSON
WALTER S. HOPKINS, JR.
DOMENICK ZANNI, JR.

Superintendent's Report

To the Board of Public Works:

Gentlemen:

As required by Section 4, Chapter 118 of an Act authorizing the Town of Reading to establish a Board of Public Works, I respectfully submit for your consideration the thirty-fifth annual report of the Department of Public Works (Water, Highway, Sewer, Park, Engineering) and a chronicle of the principal work performed during the year 1955, with recommendations for the coming year.

Water Division

Housing development continued at an increased tempo during the year, and resulted in near-record installations of water mains and services. Water mains in sizes of 6", 8" and 12" were installed totaling 8,853.10 lineal feet, and fourteen new fire hydrants set. There are now 67.496 miles of water main in the distribution system. New water services in sizes from 1" to 2" were installed at 192 locations, totalling 11,331.30 lineal feet. Services were renewed at 97 locations, and many old services were rodded and reamed to improve volume of water delivered to homes.

New water meters were installed in 128 locations, 471 meters were removed, repaired, tested and reset, and 30 meters were junked and replaced.

A total of 412,582,400 gallons of water was delivered to the distribution system by Water Pumping Stations Nos. 1, 2 and 3 at Hundred Acre Meadows. This is an increase of 37,778,400 gallons over 1954, and an all-time record of pumping for the Water Department. The annual daily average pumped in 1955 was 1,130,363, or 68.76 gallons per capita daily. Highest single day's pumpage was on Thursday, July 21, 1955 with 2,114,600 gallons, and the highest seven-day's pumpage from July 31 through August 6 with a total of 13,435,100 gallons.

Rainfall at Hundred Acres Pumping Station during 1955 totaled 48.58 inches, an excess of 7.15 inches over the 55 year average of 41.43 inches. A new all-time record of precipitation occurred in August of 1955, when 12.45 inches of rainfall was measured, 8.64 inches of which was deposited on August 16, 17 and 18 by Hurricane "Diane". No damage to the well field or pumping stations was caused by the resultant flood.

Five main breaks were experienced during the year, all caused by contractors engaged in excavation. The most serious of these occurred at the Woburn Street rail-road crossing, when the Boston & Maine Railroad pile-driver drove a twelve-inch I beam through a 10" cast iron main at 1:30 in the morning. Much water loss was experienced in this break, but there was no disruption of service to consumers.

All fire hydrants were inspected and checked for defects during the year. Six hydrants were struck by motor vehicles during the year, and were replaced or repaired.

The Deferrization Plant functioned satisfactorily during the year, removing iron from the raw water. Because of ponding of the contact coke aerators, it was necessary to completely fork over and jet-wash the coke in both aerators during the early Fall months.

Highway Division

Major improvements to the highway system in 1955 were as follows:	
Birch Meadow Drive:	Accomplished original construction of Birch Meadow Drive from Main Street to Oakland Road, including tree removal, peat removal, storm drain installation, ordinary and gravel borrow, setting corner curb, tar treated gravel surface. Bituminous concrete street surfacing, sidewalk surfacing, and slope curbing will be accomplished in 1956.
Batchelder Road:	Constructed from Haverhill Street to dead end under Betterment Act.
Bolton Street:	Constructed from Ash Street to dead end under Betterment Act.
Glenmere Circle:	Constructed from Winslow Road to accepted portion of Glenmere Circle under Betterment Act.
Jere Road:	Constructed from Lothrop Road to dead end under Betterment Act.
Lothrop Road:	Constructed from County Road at Howard Street to County Road at Wescroft Road under Betterment Act.
Minot Street:	Applied bituminous concrete surfacing over existing surface from Main Street to Washington Street.
Chapter 90 Maint:	Armor-coated Lowell Street, Winthrop Avenue to Woburn Street. Mixed-in-place surfacing applied to Haverhill Street, Franklin Street to Granger Avenue.

In the early summer, a street resurfacing program was started and carried on through the early fall months, a total of 31,235 gallons of road oil being used to surface-treat approximately 70,104 square yards of roadway. Armor coating was used extensively with good results. On several other streets, which had been severely deformed by excavations for water mains, sewers, storm drains, etc., it was necessary to apply mixed-in-place surfacing with road oils and stone cover to restore the proper crowned surface. Deep frosts, heavy rains and resultant floods, utility excavation and other causes have resulted in the breaking up of many road surfaces. In 1956 it will be necessary to surface treat many of these roadways.

A total of 439.64 square yards of granolithic sidewalks and 865.10 square yards of bituminous concrete sidewalks were installed by the Highway Department under the Betterment Act, whereby a portion of the cost of construction is borne by the abutting property owner. In addition, 239.00 square yards of bituminous concrete sidewalks were installed by contract, also under the Betterment Act.

No granite curbing was installed in 1955 under the Betterment Act, as curbing funds were not appropriated in 1955. A total of 47 applications are on hand for future installations when funds are again available.

The storm drainage system was extended a total of 2,204.00 lineal feet, including 25 catch basins and 20 manholes, all by departmental personnel. Three particularly dangerous and aggravating drainage problems were eliminated, one each on Walnut, Deering and Grove Streets. In addition, an easement was secured from property owners and major channel improvements were accomplished on Aberjona River, from Intervale Terrace to John Carver Road, a distance of 1900 lineal feet, in order to properly drain the new Senior High School Athletic Field in Birch Meadow.

The aftermath of Hurricane "Diane" in late August resulted in severe damage to various culverts, roadways and open drain ditches in various parts of Reading, with floods in many sections comparable to the damage caused by Hurricane "Edna" of September 10, 1954. The damage was so severe that the State Flood Relief Board has allocated \$20,000.00 of State funds for the permanent repair of several culverts, storm drains and roadways. Inclement weather during the Fall of 1955 has prevented completion of this work, which will be undertaken in the early months of 1956.

Maintenance of storm drains has been accomplished in many locations. In September, 1955 the Department acquired a mechanical catch basin cleaner and crane, which was mounted on a Highway Department dump truck, and two men have been constantly engaged in cleaning catch basins. This work was hitherto accomplished by contract, and is now being done by Departmental personnel at a marked decrease in cost. Many basins previously cleaned were filled with debris from the flood rains of October 1955, which necessitated a second cleaning. The Town drainage system now contains over 1200 catch basins, which must be cleaned annually or more often as conditions so require.

Removal of snow and ice was limited mostly to sanding and salting icy streets. A total of 2 plowable snow storms were experienced during the early months of 1955, and no plowable storms during the closing months. However, the month of December, 1955 with near-record protracted low temperatures and several sleet storms necessitated continued highway sanding and salting. A total of 2,053 tons of sand and 72 tons of salt were used in highway sanding in 1955.

John Street Dump

Early in the Spring of 1955, a drag-line crane was used to excavate a vast quantity of peat from the Easterly dumping perimeter of the John Street Dump. This resulted in an excavation with a dumping depth from present dump level of eighteen to twenty feet, and prolonged appreciably the useful life of the present dump. All waste material possible is burned, then the remaining debris is bull-dozed into the excavation. It is estimated that by this method the present dump will not be filled until August or September of 1956, at which time a new

excavation will be made Southerly of the Quannapowitt Drain Ditch, where the Town owns considerable acreage.

A rodent control program at John Street Dump was carried out during the Spring of 1955, by professional exterminators, with excellent results, resulting in a marked decrease in the rat population at the Dump. It is recommended that the rodent control program be continued in 1956, and thereafter from time to time as conditions warrant. A fully bonded and insured professional exterminator uses non-toxic baits harmless to humans and properly safe guarded from dogs and cats.

Park and Playground Division

Maintenance of all Parks, Playgrounds and Recreation areas was carried on during the year, and during the Supervised Play period in July and August the Park Department worked in close co-ordination with the Recreation Committee and its Director.

Several new construction projects were completed during the year at Parks and Playgrounds.

Memorial Park landscaping was completed, adding 4½ acres of available park space and completely eliminating the low, marshy area on the Charles and Harrison Street sector of the Park. Loam and peat which had been removed from the area reclaimed, was spread, graded, treated with ground limestone and commercial fertilizer, and seeded with a special formula Park grass seed. A concrete block field house was erected near the site of the old Park Barn for storage of supervised play equipment.

At Birch Meadow Playground, two tennis courts were resurfaced with bituminous concrete and new fox wire installed on tennis court fences. Grading operations adjacent to the Overlook were postponed to the Spring of 1956 because of flooded conditions in the Senior High School Athletic Field, and resultant failure of a contractor to complete grading of the school area.

Sturges Park received much attention during the year. To prevent flooding of newly constructed dwelling houses on Walnut Street, excavated material from betterment road construction was utilized to construct a berm adjacent to these houses, two inlet brooks were piped, and a start made on clearing brush from a large section of the Park abutting Pine Ridge (Private) Road. It is planned to further improve Sturges Park in 1956 by constructing a natural hockey rink separated from the general ice skating area, and, by using excavated material from the Chapter 90 Construction of West Street as fill, construct a graded and grassed play area in the Northerly section of the Park.

Little League Park on Pleasant Street also received a grading treatment. Peat was removed from a portion of the area Westerly of Little League Ball Field, and waste material from betterment streets was used as fill. In the Spring of 1956, this peat will be spread over the newly filled area, properly treated, and grassed. If funds are available, two more years should complete a baseball field for public use in this Park, at a very nominal cost.

Washington Street Ball Park was in constant use during the play season, and received its normal care. New fox-wire was installed on

the tennis court fences, and a cement block field house was constructed for the storage of supervised play equipment.

Sewer Division

Main trunk sanitary sewers totaling 6319.81 lineal feet were laid in 14 streets, including 33 man holes, for a total of 108 possible sewer house connections. Departmental forces installed 826.55 lineal feet of sewers and 5493.26 lineal feet were installed by contractors.

The sewer on Lowell Street, from Intervale Terrace to High Street encountered numerous subterranean obstacles and early December 1955 frost conditions, but will be completed early in 1956.

New sewer house connections were made to 64 dwelling houses and business establishments, and five connections were partially installed to street line on Lothrop Road. Sewer house connection installations totalled 3857.75 lineal feet.

Maintenance of sewer trunk lines was carried on throughout the year, particular attention being given to sewers laid on flat gradients. Three main sewers became clogged due to intrusion of tree roots through joints on sewers laid in years past, and one sewer house connection was relaid for the same reason.

A new manhole to receive the contents of private cess-pool cleaning tank trucks was constructed at the rear of the Municipal Garage on John Street, on the main outfall sewer line. This has eliminated complaints from property owners on John and Village Streets adjacent to the former dumping manhole at the intersection of John and Village Streets.

Willow Street Sewage Pumping Station has operated satisfactorily during the year, disposing of sewage from the Senior High School. During grading operations at the Senior High School Athletic Field in Birch Meadow, a contractor's bull-dozer damaged a sewer manhole in Birch Meadow. This was not reported, and during excessive rainfalls in mid-October, the meadow became flooded, causing surface water to enter the sewer and flood the wet-well at the sewage pumping station, resulting in considerable damage to motors, cominutor, and pumps. The break was eventually located, temporarily sand-bagged, and repaired when flood water subsided.

Engineering Division

The Engineering Division accomplished much necessary work during the year. Surveys, plotting and drafting, design, preparation of specifications and contracts, inspection of contract and departmental work including new roads, sewers, drains, water mains, sidewalks, parks, received the attention of this Division. All subdivisions and developments submitted were checked for proper layout under the rules and regulations of the Board of Survey and Subdivision Control Act.

Board of Survey Division

During the year 1955, a total of 15 duly advertised public hearings were held on petition of contractors, developers and/or home owners for acceptance of lines and grades of proposed street layouts. Estimates were prepared and surety bonds secured for construction of six of these

locations. Grades were changed on several streets after due notice and public hearing as required by law.

Many individual lot and/or small subdivision plans where the property abutted on public town ways were examined and endorsed as not requiring Board of Survey approval under the Subdivision Control Law, Chapter 41, General Laws, for filing in the Registry of Deeds and Land Court.

Recommendations

The continued rapid growth of Reading have resulted in increased demands for utilities and services of all types. Chief among these are sanitary sewage extensions, water main extensions, storm drain installation including piping of existing open water courses. Unless annual appropriations are substantially increased, many of the requested services will of necessity be postponed for some time, due to lack of funds. I therefore recommend that annual appropriations for main trunk sewer extensions, sewer house connections, storm drain installations and maintenance of storm drains be substantially increased.

The Capital Expenditures Planning Committee have designated 1956 as the year in which funds would be allocated for an addition to the Municipal Garage for the use of the various Public Works Departments. At the March 1946 annual Town Meeting the sum of \$25,000.00 was transferred from Water Available Surplus for the purpose of constructing this addition, but the funds transferred proved insufficient to construct the proposed addition. Ten years have since elapsed, and the Municipal Garage has now reached a point where proper storage and maintenance of equipment and supplies for the Water, Sewer and Highway Departments is nearly an impossibility. Equipment is crowded to the danger point, and in the event of fire it would be very difficult to move even the rolling equipment to safety. I recommend that the additional sum of \$15,000 be raised from the Tax Levy or from available funds for this extension, and that the Department act as contractor on construction of the addition and sublet such work as can more economically be sub-contracted.

Within the near future, it will be necessary to have a long-range study made of future sewer extensions, such as was last made in September 1916 by F. A. Barbour. The scope of this study will be of such magnitude that it should be accomplished by competent consulting engineers.

With the rapid increase in population and resultant added use of water, a survey should also be made of additional water collection and treatment facilities. Additional water supplies may well be needed prior to the proposed connection with the Metropolitan District Commission water supply.

In closing this report I wish to thank the Board of Public Works for their cooperation, the members of the department for their efficient work, and other town officials, departments and citizens who have cooperated with and assisted this department.

Respectfully submitted,

JAMES T. PUTNAM, Superintendent

STATISTICS FOR YEAR ENDED DECEMBER 31, 1955

READING WATER DEPARTMENT

Reading, (Middlesex County), Massachusetts

General Statistics

Population 1955 State Census — 16,440.

Date of Construction of Pumping Stations — 1931, 1953.

Source of Supply — artesian wells, gravel-packed wells.

Mode of supply — pumping.

Pumps at Hundred Acres Pumping Stations

Builders of pumping machinery — DeLaval Steam Turbine Co.,
A. D. Miller, Inc.

Pumping Station No. 1

(A) — Pumping unit No. 1 — Electric two-stage 5/4 DeLaval 75 H.P.,
1750 R.P.M., 3-phase, 60-cycle, 440-volt. 900 Gallons per minute.

(B) — Pumping unit No. 2 — Electric two-stage 8/6 DeLaval 125
H.P., 1750 R.P.M., 3-phase, 60-cycle, 440-volt. 1200 gallons per minute.

Auxiliary Station No. 2

Pumping unit — Cook rotation electric 50 H.P., 1800 R.P.M., 3-phase,
60-cycle, 440-volt. 850 Gallons per minute.

Emergency drive — 4-cylinder twin-disc Continental gasoline en
gine.

Auxiliary Station No. 3

Pumping unit — Cook rotation electric 20 H.P., 1800 R.P.M., 3-phase,
60-cycle, 440-volt. 550 Gallons per minute.

Emergency drive — 4-cylinder twin-disc Continental gasoline engine.

Pumping Statistics

K.W.H. of electricity used for year — 593,200.

Total pumpage — (Venturi, Builders—Flowatch meters) — 412,582,-
400 Gals.

Average No. Gals. per K.W.H. — 695.52.

Average static head against which pumps worked — 223.

Average dynamic head against which pumps worked — 258.

Cost of pumping (per million gallons) power only — \$20.48.

Cost of pumping (per million gallons) — based on total pumping
station expenses — \$23.30.

Cost of filtration (per million gallons) based on cost of plant operation — \$7.47.

Cost of water supply (per million gallons pumped) figured on cost
of maintenance, plus interest on bonds — \$203.40.

STATISTICS RELATING TO DISTRIBUTION — 1955

Kinds and sizes of pipes: Cast Iron, Galvanized Iron, Lead-lined — 1¼" to 12".

Main Extensions 1955 — 2"	78.00 Ft.
6"	6426.90 Ft.
8"	1810.20 Ft.
12"	533.00 Ft.

Totals 8853.10 Ft.

Total length of mains now in use — 67.496 miles.

No. of Hydrants added during year — 14.

No. of Hydrants (public and private) now in use — 425.

No. of stop gates added during year — 34.

No. of stop gates now in use — 1046.

No. of Stop gates smaller than 4" — 166.

No. of blow-offs added during year — 1.

No. of blow-offs now in use — 30.

Range of water pressure — 45 to 90 pounds.

STATISTICS RELATING TO SUCTION MAINS AND WELLS — 1955

Kind of Pipe — Cast Iron.

Size of Pipe — 8", 10", 12", 16".

Total Length Pipe in use — 8" — 4608.00 Ft. 10" — 882.00 Ft. 12" — 1820.00 Ft. 16" — 116.00 Ft. Total — 7426.00 Ft.

Gates on suction and force mains now in use — 8" — 4. 10" — 1. 12" — 12. 16" — 1. Total — 18.

Wells on various line — Line A — 6. Line B — 18. Line C — 11.

Line D — 12. Line E — 16. Line F — 20. Line G — 8. Line

H — 13. Line I — 9. Line J — 9. Line K — 8. Total 131.

Gravel-packed wells at auxiliary pumping stations — 2.

STATISTICS RELATING TO SERVICES — 1955

Kinds of pipe — Cast Iron, Cement-lined, Lead-lined, Galvanized iron, Copper tubing.

Sizes — ¾" to 6".

Services extended in 1955 — 11,331.30 Ft.

No. new service pipe connections made in 1955 — 192.

No. of services now in use — 4201.

Average length of services installed in 1955 — 59.02 Ft.

No. of new water meters tested in 1955 — 128.

No. of old meters, cleaned, repaired and tested — 471.

No. of water meters junked — 30.

No. of water meters now in use — 4656.

Per Cent	1.3	1.3	1.3

This year has been a busy and most successful one with the circulation for the library passing the 100,000 mark. With the increased circulation there is an obvious need for the purchase of more books. The staff and custodian have continued to serve conscientiously and efficiently. The following report prepared by Miss Turner, Head Librarian, for the trustees, gives more detailed information on library operations.

SUMMARY OF THE LIBRARIAN'S REPORT TO THE TRUSTEES

There has been a very marked increase in adult borrowing this fall and it is with a deep sense of satisfaction that we have achieved circulation totaling 104,254. The circulation in the children's room is nearly half that of the adult room, and it would seem that next year more of our book budget should be spent for this department. The wear and tear is greater on these books than on adult's, the bindings are less durable, the rise in prices is greater and there is need of more duplication.

This year we have sent a good many books to the bindery, but have mended about twice that number in the library. One person working two days a week, six hours a day, can almost keep up with the books that need repairs from the adult and children's departments. Last year there were 2,031 books mended — this includes washing of all books, gluing the backs of some, putting new backs and corners on nearly all of them, and mending torn pages, — the latter takes considerable time for children's books especially.

It has been possible to go through a bequest of books that the library had received from the estate of Julia F. Spinney. We found that we could replace some of our worn copies with fresher ones of hers and about 175 of her books have been placed on the shelf. A good number of her books were kept with the idea of possibly forming a historical collection.

We received from Mr. Albert Sargent a number of books relating to various Civil War regiments, which augment those we have. He

also presented the library with the flag of the United States that had been used to drape the altar at meetings of Post #194 of Reading, Department of Massachusetts of the Grand Army of the Republic.

Through the year some very beautiful Memorial books have been presented to the library. We are very grateful for these.

The question of Library Hours still vexes the public, as daily telephone calls testify. The hours are printed on each borrower's card, but many people leave their cards on deposit in the library when they are not using them. Many of our new borrowers have moved to Reading from cities where the library hours are longer. The children would appreciate having the library open all day in vacation. I think that longer hours will not only increase the circulation, but will markedly improve our public relations.

My staff have given me fine consideration and co-operation during the past year. They all have a true interest in giving better library service.

I am grateful to my Board of Trustees for the continued and increasing efforts they are making to solve the problems of efficient library administration.

ANNA R. TURNER,

Head Librarian

New borrowers	894	978
Fines Received	\$ 1,333	\$1,440.85

NOTE: see the Accountant's Report for a breakdown of library expenses and a statement on trust funds.

RECREATION PROGRAM

As this is the first year your Recreation Committee has attempted to operate both a summer and winter program, this report will be in two parts.

Summer Program

Record attendance at all the parks this year once again has proven that this program is meeting with great approval. The Committee this year opened three more play areas on a part-time basis, not only to care for the increase in attendance, but also to afford greater supervision for the smaller children in the respective localities. The three playgrounds opened were the Highland, Prospect, and Lowell Street Schools.

Two new major activities were added to the program: Archery and Basketball. As in past years, the program consisted of play days with other towns, beach trips, tennis, baseball and softball leagues. The interest in tennis continues to increase, and as a result more time was spent in tennis instruction. The program also featured special days, such as 4th of July Carnival, Boston Children's Theater Group, Davey Crockett Day, Bathing Beauty and Pet Show Day, and the Grand Finale Carnival at Birch Meadow.

The Arts and Crafts Program was extremely well accepted. The increase in attendance required the need of giving the Arts and Crafts Director assistance so that all the children might have at least some instruction in this area. This particular phase of the playground activities will be increased next year by additional help so that the children may all be cared for.

The Swimming Program is hampered by the lack of bathing facilities. At the present time we have but two wading pools available for the seven play areas. In order that all children in the Recreational Program might participate in swimming activities, it necessitated the transportation of the children of the parks without wading pools to either Washington Street or Birch Meadow. The Committee has recommended to the Board of Public Works that they build a wading pool at the Memorial Park in 1956, and, if possible, a wading pool at the Eaton Park in 1957. If wading pools are made available in these new areas, it will be possible for swimming instruction to be included in the program.

It is the hope of the Recreation Committee that when the report of the Special Committee for School Sites and Recreational Sites, appointed by the Town at its adjourned annual Town Meeting April 4, 1955, has been received that it may be able to have new areas in several other sections of the town. The Recreation Committee is very anxious to have a play area in the vicinity of Haverhill and Franklin Streets. There are a great many children in this area who are unable to avail themselves of the Recreational Program due to the transportation problem.

The staff is made up of school teachers and college students, with the exception of the two pool attendants. The majority of the staff has had at least one or more years' of experience in playground work.

Winter Program

This year the Recreation Committee is starting to develop a winter program. It was hoped that a basketball league might be formed, but due to the cost of janitorial service for the gymnasium this program has been omitted.

The winter program of the Recreation Committee at the present time consists of the supervision of all skating areas. The town has available three areas at this time: Sturges (illuminated at night), Birch Meadow, and Memorial Park. Mr. Vern Schurman has also made available to the Recreation Committee the skating area on his property located at Haverhill Street.

One of the handicaps encountered by your Committee is the lack of a hockey rink. The rink that has been used at Sturges in prior years was not erected by the Park Commission this winter. It is hoped next year's winter program will not only consist of skating but a hockey league, a bowling league and possibly a basketball league.

We appreciate the help and support given to the Recreation Committee by the various other committees in Town, and also the Reading Chronicle for its coverage of the playground activities.

Respectfully submitted,

ALBERT CHISHOLM
LEE DONLEY
LAWRENCE DREW
RICHARD GALE

DOMENICK ZANNI

Recreation Committee

INSPECTOR OF ANIMALS

To the Honorable Board of Selectmen
Town of Reading, Massachusetts
Gentlemen:

I hereby submit my report as Inspector of Animals for the year January 1, 1955 to January 1, 1956.

Fifty-eight dogs and one cat were quarantined for biting or scratching people, a drop of about 33 per cent over last year and a drop of about 20 per cent over the previous year.

Two dogs heads were submitted to the Wasserman Laboratory for the examination of Rabies, laboratory reports being negative for both, with the final animal inoculation report pending on the second head.

The annual inspection of all barns housing livestock, and the livestock in the town was conducted by request of the Division of Livestock Disease Control, disclosing there to be in the town, 51 neat cattle, 35 pigs, a drop of 50%, 16 horses, a drop of 40%, 90 sheep and 8 goats. No Contagious Infectious diseases were noted.

Very truly yours,

GARDINER A. LESTER, DVM
Inspector of Animals

SIXTY-FIRST ANNUAL REPORT

OF THE

MUNICIPAL LIGHT BOARD

for the year ended

December 31, 1955

MANAGER'S REPORT

To the Municipal Light Board

Gentlemen:

The unprecedented expansion and growth in the electrical industry by no means left the department problem free for the year 1955. The continuation of the vigorous home building program in our area coupled to the unusual customer demand for our service presented many very difficult problems.

Following is a brief account of the highlights of 1955 operations:

PEAK LOAD: 16774 Kilowatts. The peak demand again occurred on December 21, 1955 at 6:00 P.M. with a 25 percent increase over the 13394 kilowatt demand of 1954, an unusual figure. This increase presents to the department itself one of the most crucial problems in its history: namely, serving this load in 1956.

This demand is the basis for a sharply-expanded budget needed to assure adequate capacity to meet customers' needs in the ensuing years.

CUSTOMERS: 11,488. Service was extended to 771 new customers, a 43.6 percent increase over last year.

There were 206 new services installed in Reading as against 565 for the outside towns, a 2.5 to 1.0 ratio. This is a reversal of proportions which existed in 1945, i.e.: Reading services exceeded the outside towns for 1945 by 236 new services.

ENERGY PURCHASED: 49,402,413 Kilowatt Hours. Again the cost of incoming electricity purchased at our Ash Street station decreased, which reflects an increase in the use of electricity during "off-peak" hours, i.e.: more customer use during the daytime and late night hours. The average cost per kilowatt hour was 1.535 cents for 1955 as against 1.546 cents in 1954, and 1.594 cents in 1952.

ENERGY SOLD: 43,796,722 Kilowatt Hours. This was an increase of 5,711,658 kilowatt hours over previous year, marking a new annual high in electric sales. This is the highest annual gain in the department's record. The national average home consumption of 2728 kilowatt hours for 12 months ended November 30, 1955 was surpassed by our figure of 2856 kilowatt hours.

OPERATING REVENUES: \$1,297,078.49. The trend of more electricity per dollar continued this year. The average revenue per kilowatt hour declined to 2.96 from 2.99 cents for the year 1954. This is accountable to the fact of more electricity used in the lower rate steps.

ADDITIONS TO PLANT: \$170,928.37. The construction requirements to keep pace with customers' demand for our service is reflected in the fact that our cost of plant increased from \$1.3 million to \$2.6 million since the past war boom. Percentage-wise, this compares favorably with

the 100 percent for new construction incurred by the electric industry as a whole.

The installation of an additional 13,800 volt cable line to North Reading was started in the latter part of the year and scheduled for completion early in 1956. This is to take care of the increase of growth in North Reading of 18.9 percent over 1954. This will also strengthen our Reading circuits considerably at the same time. This reflects a substantial savings in that an added load in two areas can be taken care of by one move, at a portion of the over-all expense if two projects were required.

A temporary Regulating station was installed in Lynnfield Center to more adequately serve the load in that area, pending the installation of more adequate feeders to this area and again strengthening our Reading services at the same time.

Extensions and enlargements of the distribution facilities to new and existing connections required expenditures of \$163,000 for 2330 K.V.A. of net additional installed line transformer capacity, 934 new meters, poles, conductors and for new street lighting installations.

Acknowledgement and appreciation is accorded to the members of the Municipal Light Board for the time, interest and efforts they have devoted to the conduct and guidance of this department's activities and to the co-operation received from other Boards and Town Departments.

Acknowledgement is also made of the retirement on October 14, 1955 of Clarence L. Thomas who had served the Department for 35 years and as Manager since 1946.

In accordance with the provisions of Section 57, Chapter 164 of the General Laws, I submit herewith my estimate of income and expenses of the plant for the year ending December 31, 1956.

ESTIMATED INCOME AND EXPENSES FOR 1956

INCOME:

From Private Consumers	\$1,421,382.22
From Tax Levy—	
For Street Lights	17,000.00
For Municipal Buildings	20,711.21
From Miscellaneous Income	1,500.00
Mdse. and Jobbing	6,000.00

TOTAL INCOME	\$1,466,593.43
--------------------	----------------

EXPENSES:

Production	898,542.04
Distribution	164,473.10
Utilization	17,300.00
Commercial	54,095.61
New Business	200.00

General and Miscellaneous	75,213.82
Depreciation	130,908.08
Bond and Note Payments	39,000.00
Interest on Bonds and Notes	16,410.25
Uncollectible Operating Revenue	1,800.00
Taxes — Outside Towns	25,000.00
Interest on Consumers Deposits	250.00
TOTAL EXPENSES	\$1,423,192.90

Excess — Income over Expenses	\$ 43,400.53
K.W.H. Purchased	56,724,522
K.W.H. Sold	52,248,768
K.W.H. for Reading Street Lights	580,000
Expense per K.W.H. Sold	2.7238c
Cost of Street Lights	\$ 15,798.04
Appropriation for Street Lights	\$ 17,000.00

A summary of Income and Expenses, Total Cost of Plant, together with the statement of Assets and Liabilities, the Profit and Loss Account, and the Auditor's Certificate is appended herewith.

Respectfully submitted,

GILBERT W. STANFORD, Manager

CHARLES E. STANWOOD & COMPANY

Accountants and Auditors

16 Court Street

Boston, Massachusetts

January 31, 1956

To The Municipal Light Board
Town of Reading
Reading, Massachusetts

We have examined the accompanying balance sheet of the Municipal Light Department of the Town of Reading, Massachusetts as at December 31, 1955 and the related statements of income and profit and loss for the year then ended. Our examination was made in accordance with generally accepted auditing standards and included such tests of the accounting records and other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying balance sheet and statements of income and profit and loss present fairly the financial position of the Municipal Light Department as at December 31, 1955 and the result of its operations for the year then ended, in conformity with the "Uniform System of Accounts for Municipal Lighting Plants" as prescribed by the Department of Public Utilities of Massachusetts.

CHARLES E. STANWOOD & COMPANY

REPORT OF THE MUNICIPAL LIGHT BOARD

The report of the Manager as submitted by him with certificate of the auditor is hereby approved by the Municipal Light Board and constitutes its report to the Town.

ALFRED H. DOLBEN
PHILLIP G. WILLCOX
WINFRED F. SPURR
Municipal Light Board

TOTAL COST OF PLANT

as of December 31, 1955

Cost of Electric Plant:—

Cost of Land — 226 Ash St.	\$ 2,575.80
25 Haven St.	7,459.46
Wildwood St., Wilmington	700.00
Haverhill St., North Reading	3,219.19
Cost of Structures — 226 Ash St.	66,848.87
25 Haven St.	28,093.90
Cost of Transformer Station and Substation Equipment	455,185.73
Cost of Poles, Fixtures and Overhead Conductors	1,186,277.93
Cost of Underground Conduits	138,715.64
Cost of Underground Conductors	275,502.14
Cost of Consumers Meters	147,150.04
Cost of Consumers Meter Installations	41,833.85
Cost of Line Transformers	188,766.94
Cost of Line Transformer Installations	10,941.93
Cost of Street Lighting Equipment	78,844.70
Total Cost of Electric Plant	\$2,632,116.17
Cost of General Equipment	32,508.58
Total Cost of Plant and General Equipment	\$2,664,624.75

SUMMARY OF INCOME AND EXPENSES

for the year ending December 31, 1955

REVENUES:

Residence Service	\$ 959,818.25
Commercial Service	181,753.07
Primary Power — Wholesale	88,625.73
Welding Service	244.05
Municipal Service	21,374.04
Sales to Private Companies and Municipal Plants	3,940.12
Street Lighting Service	41,323.23
Miscellaneous Income	8,824.38
Total Revenues	\$1,305,902.87

EXPENSES:

Production Expenses	\$ 758,198.54
Distribution Exepnses	152,161.10
Utilization Expenses	16,777.83
Commercial Expenses	45,215.01
New Business Expenses	271.29

Balance December 31, 1955	\$ 723,616.01

REPORT OF THE FOREST WARDEN AND THE SUPERINTENDENT OF FIRE ALARM

January 15, 1956

To the Honorable Board of Selectmen:
Gentlemen:

The 1955 report of the Fire Chief, Forest Warden and Superintendent of Fire Alarm is hereby submitted.

Manual Force. The permanent force consists of twenty men including the Chief, Deputy Chief, Captain, and two Lieutenants. There are thirteen full time call firemen and five half time call firemen and a Dispatcher on call. There are 30 active members of the Auxiliary Fire Service. Three men attended the Oil Heat Institute's course in Oil Burners during 1955 at no expense to the town. One man attended a Fire Prevention Law course at M.I.T. and 15 men voluntarily completed a Standard Red Cross First Aid Course given at the station by a qualified instructor. Permanent fireman George F. Fogg was retired from the department on October 31, 1955 for an accidental disability.

Apparatus. Located at the Central Station are: Ladder 1, a Seagrave 65 ft. Junior Aerial Ladder Truck; Engine 1, a 1000 gal. per min. Seagrave Pumping Engine; Engine 2, a 400 gal. per min. Seagrave Pumping Engine in reserve; Engine 4, a 500 gal. per min. Chevrolet front end pumping engine that also has a 100 gal. per min. portable pump, and is used for brush and grass fires; Engine 6, a 750 gal. per min. Seagrave Pumping Engine; Engines 7 and 8 are 500 gal. per min. Auxiliary Trailer Pumps; Engine 9, a one ton Chevrolet utility truck with a 250 gal. per min. front end pump; a two wheel hose trailer; and a Chevrolet Sedan Chief's Car. Located at Station #2 on Woburn Street are: Engine 3, a 600 gal. per min. Seagrave Pumping Engine; Engine 5, a Chevrolet with a 400 gal. per min. front end pump, manned by the Auxiliary Fire Service. One walkie-talkie 2 way radio was given to the department this year by a citizen of the town, and has been placed in service on Engine 3. New tires were placed on Engines 1 and 5. Routine maintenance of the apparatus was carried on throughout the year as necessary.

Service Record. The department responded to 135 bell alarms, 14 of which were false; 11 verbal calls; 33 radio calls; 217 telephone calls; 217 service calls — a total for 1955 of 613. Mutual Aid was furnished to other communities 51 times and other departments responded to Reading under Mutual Aid 16 times. Included in the total calls are 91 for building fires, 30 for dump and rubbish fires, 138 for grass and brush fires, 21 automobile fires, 15 automobile accidents, 4 other accidents, 11 calls for the resucitator, 3 calls for oxygen, 15 calls to assist the police department. Apparatus travelled a total of 16,456 miles during the year. 26 firefighters received minor injuries and 3 civilians were injured, one with very serious burns. The fire loss for 1955 on property endangered, valued at \$432,872.22 was \$42,034.09 an increase of \$32,899.64 over last

year. Of the loss, \$37,436.60 was covered by insurance, making the uninsured loss \$4597.49. The following equipment, was used: 20 CO₂, 1 Soda Acid, and 3 Dry Powder Extinguishers; 252 booster tanks of water; 36,450 ft. of $\frac{3}{4}$ inch booster hose; 9,600 ft. 1½ inch hose; 16,950 ft. 2½ inch hose; 1691 ft. ladders raised including the aerial ladder 17 times. 30 waterproof salvage covers were spread; smoke ejectors used 21 times; engines pumped 11 hours. During the August hurricane all men not on vacation reported to the station and assisted with the pumping of cellars. Engine 8 Trailer Pump was sent to the City of Medford to assist with the water situation there after the hurricane, and pumped for two days. Engine 7 Trailer Pump was sent to the Wilmington Dump on June 21st to assist with a dump fire that burned for a week. The engine pumped over 100 hours and used part of the 840 gallons of gasoline and 731 man hours necessary to run pumps and extinguish this fire. Salaries and gasoline were paid for by Wilmington.

Fire Prevention. Lecturing was done at all of the elementary schools during fire prevention week. The annual awards for the fire prevention essay contest conducted by the Auxiliary Fire Service were presented by the Chief at the Junior High School. 307 Power oil burner inspections made and permits issued for storage of fuel oil, and 14 inspections made of range burners installed and storage for same. 38 Liquified Petroleum Gas installations were inspected, also permits issued for storage of bottled gas. 63 permits were issued for blasting operations. 3 permits for storage of Class A fluids. 1 permit for removal of a gasoline tank. Several inspections were made of new gasoline tank locations. Men of this department were on one occasion hampered in their efforts to extinguish a fire at the Town Dump as some thoughtless citizen had placed live ammunition, including 2 hand grenades, in the dumping area. Other citizens were in grave danger as this ammunition was exploding from the heat of the dump fire. Other numerous inspections were made as requested or on complaint. 1644 permits were issued for fires in the open air and several times during dry periods no permits of this nature were issued.

Fire Stations. Minor repairs were made as necessary to the Woburn Street Station. This station was erected in 1874 to house a hand drawn engine and at present houses 2 motor propelled engines but no permanent firemen. This station should be replaced in 1956, and provisions made for permanent men to be assigned there. With 2 churches, 4 schools, a convent, and 5 large rest homes located west of the railroad, a very serious condition exists when apparatus from the central fire station is held up at the railroad crossings. At the central fire station the living room of the 2nd floor was tiled, the interior of the 1st floor was painted, the work being done in both cases by the permanent men. An outside drainpipe was relocated to keep water from coming in the fire alarm battery room and the inside floor drains were changed to improve the draining from the apparatus floor.

Fire Alarm. Underground conduit was laid outside the central fire station and on Haven Street near Village. A pedestal base was set

here. New fire alarm boxes were placed at boxes 63, 68, 15, and 54. Boxes 63 and 68 were of the older type and replaced with the new type box. Boxes 15 and 54 were demolished when hit by automobiles. Box 53 was also hit by an automobile, but only the outside shell needed replacement. As relocation of poles requires relocating fire alarm boxes, an effort is being made to replace the key type door with the T handle door that opens much easier. Box 21 was moved across Lincoln St. to the corner of Fulton St. Overhead construction has been maintained and tree insulating done where necessary on the system. Overhead wires have been extended on Haverhill Street at the Franklin Street end, at the Bay State Road end, and from Charles to Wakefield Streets. On Pine Ridge Road to Sylvan Road an extension of the wires was made and 1 tapper connected. The valve of the fire whistle has been replaced and is more satisfactory.

Recommendations. It is recommended that the Woburn Street Station be replaced in 1956 and that the permanent force be increased. Two way radios should be purchased until all apparatus is so equipped.

It is felt that a base radio transmitting station should be installed at the Central Fire Station to eliminate confusion with the police transmitter and assure more efficient service and movement of apparatus. It is also recommended that a gasoline driven electric generator be installed to supply fire and police stations during failure of electric current. Several dead end water mains should be connected and as new mains are laid, they should be larger than 6 inch to improve the water supply for fire fighting. An emergency telephone line should be installed at both fire stations for fire calls only, as delays have happened when the phone was being used for business purposes. Electric motors to open and close the central station overhead doors should be installed as these doors are very difficult to open by hand and remain open at times for very long periods when the apparatus is at a fire.

Conclusion. I wish to thank your honorable board for the usual co-operation received, the members of the department and Auxiliary Fire Service for faithful service. I wish also to thank the operators at the telephone exchange for efficient handling of our emergency calls, the Red Cross Motor Service and canteen, and other town departments and citizens who have assisted this department.

Respectfully submitted,

HUGH L. EAMES

Hugh L. Eames, Chief of the Fire Department
Forest Warden, and Supt. of Fire Alarm

REPORT OF WELFARE AGENT

To the members of the Bureau of Old Age Assistance and Board of Public Welfare and Citizens of the Town of Reading, the following report of activities, expenditures, and reimbursements for year ending December 31 is respectively submitted.

Members of the Bureau of Old Age Assistance Board of Public Welfare:

Newell H. Morton, Chairman
Daniel L. Chamberlain
Donald C. McKie

Staff Members of the Welfare Office:

Quincy B. Park, Agent
Gladys M. Wilson, Social Worker
Virginia C. Smith, Social Worker
Anne A. Bleau, Senior Clerk
Patricia E. Evans, Clerk-typist
Elsie M. Kriehn, Clerk-typist

During the past year a total of 73 applications for aid were received and processed by the Welfare and Old Age Assistance Office. A total of 66 applications were approved after investigation by Social Workers or Agent had been made, and eligibility for need was determined. A more detailed report is furnished under appropriate categorical headings which follow:

Old Age Assistance

	1954	1955
Case load (Monthly Average)	211	199.9

Expended

Cash Grants	\$142,742.75	\$119,064.08
Material Grants	54,879.46	81,383.75
Payments to other cities and towns	4,259.42	3,743.08
Total	<u>\$201,881.63</u>	<u>\$204,190.91</u>

Above comparison of expenditures for 1954 and 1955 indicates a considerable decrease in the cash assistance payments to Old Age Assistance clients. Material grants (medical payments) show a substantial increase totalling \$26,504.29.

A large percentage of this increased expenditure was paid for nursing and convalescent homes for 20.1% of present case load requiring this type of care. Increased hospital per diem rates and expensive medication are also a resultant factor in this increased expense.

All geriatric authorities appear in agreement that medical expenditures in this category of assistance will continue to show increases. It is expected expenditures will be offset to some degree by a smaller number of persons requiring assistance due to increased resources, such as social security and pension payments.

Aid to Dependent Children

Case load for 1954 (monthly average)	16	cases for 49 persons
Case load for 1955 (monthly average)	14.9	cases for 43 persons

Expended

	1954	1955
Cash payments	\$ 22,702.43	\$ 20,171.10
Material grants	2,782.04	1,643.80
Total	\$ 25,484.47	\$ 21,814.90

Ten applications for aid from this category of assistance were processed. Two were reapplications. Two were transfers from other communities. Six were cases not aided previously.

Total expenditures for year was \$3,669.57 less that were required for 1954.

Disability Assistance

Case load (monthly average) 1954	11	cases
Case load (monthly average) 1955	13	cases

Expended

	1954	1955
Cash grants	\$ 8,438.50	\$ 9,217.95
Material grants	2,000.70	2,493.07
Board (including payments to nursing homes)	none	1,143.00
State Institutions	256.78	840.22
Total	\$ 10,695.98	\$ 13,694.24

This category of assistance is available to persons in need who are adjudged to be either permanently or temporarily disabled. The Town is reimbursed at 75% of expenditures. Medical expenses, nursing home, and state institutional care are expected to be higher in this category of assistance due to disabling factor of clients eligible for this type of assistance. Nine applications were received for this category of assistance. Two were denied due to ineligibility. Seven were approved and assistance granted.

Average monthly payment to each recipient were increased from \$74.48 as paid in 1954, to \$87.10 as paid in 1955.

General Relief

Case load for 1954 (monthly average)	41	for assistance to 103 persons
Case load for 1955 (monthly average)	35	for assistance to 87 persons

Expended

	1954	1955
Cash payments	\$ 14,050.45	\$ 10,867.85
Material grants and burials	1,912.04	1,691.35
Nursing Homes	780.00	780.00
State Institutions	493.84	833.83
Division of Child Guardianship	22.49	none
Payments to other cities and towns	6,473.57	6,336.10
Total	\$ 23,732.39	\$ 20,609.13

A decrease in expenditures over previous year's figure is shown in the amount of \$3,123.26. Undoubtedly, this is due to excellent economic conditions during the past year with resultant labor shortages.

This category of assistance is available to those in need who are unable to qualify for aid under regulations of other assistance programs.

During the past year, twelve applications for this category of assistance were received. Two were denied and the remaining ten were approved and assistance granted. This number included burial of two indigent persons who died in this Town.

Average monthly payments per case for 1954 was \$74.02. Average monthly payments per case increased only slightly to \$75.18 during 1955.

Reimbursements to Town Treasurer Old Age Assistance

Source	Amount	Account Credited
State Reimbursement	\$ 90,661.90	Surplus Revenue
Other cities and towns	4,012.54	Surplus Revenue
Federal Grants	74,914.72	O.A.A.

Aid to Dependent Children

Source	Amount	Account Credited
State Reimbursement	\$ 7,452.74	Surplus Revenue
Federal Grants	10,178.15	A.D.C. Account

Disability Assistance

Source	Amount	Account Credited
State Reimbursement	\$ 4,598.32	Surplus Revenue
Federal Grants	5,020.14	D.A. Account

General Relief

Source	Amount	Account Credited
State Reimbursement	\$ 4,033.93	Surplus Revenue
Other cities and towns	2,366.97	Surplus Revenue

Summary

State reimbursement for all categories of assistance credited to Surplus Revenue Account	\$106,746.89
Reimbursement from other cities and towns credited to Surplus Revenue	6,379.51
Total	\$113,126.40
Federal reimbursement credited to assistance account	\$ 90,113.01

The entire office staff wishes to express their appreciation at this time for courtesies and interest shown by Members of the Bureau of Old Age Assistance and Board of Public Welfare during the past year. Appreciation is also extended to clients and relatives of those assisted for their cooperation and understanding of complicated regulations and requirements as administered by staff of this office.

Respectfully submitted,

QUINCY B. PARK,
Welfare Agent and Director of Old Age Assistance

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

Reading, Mass., Jan. 11, 1956

To the Honorable Board of Selectmen,
Town of Reading, Mass.
Gentlemen:

The following is a summary of the work completed by The Department of Weights and Measures for the year 1955.

	Adjusted	Sealed	Condemned
Scales tested and sealed, over 10,000 lbs.	1	2	
Scales tested and sealed, 100 to 5,000 lbs.	2	6	
Scales tested and sealed, under 100 lbs.	10	34	
Weights	28		
Gasoline Pumps	14	58	1
Yardsticks	8		
	<hr/>	<hr/>	<hr/>
	27	136	1

Trial Weighings and Measurements of Commodities

sold or put up for sale	No. Tested	No. Correct	Under	Over
Bread	20	14	2	4
Butter	10	10		
Dry Commodities	35	33	1	1
Grain and Feed	10	9	0	1
Meats and Provisions	10	8	2	0
Flour	6	4	2	0
	<hr/>	<hr/>	<hr/>	<hr/>
	91	78	7	6

Summary of Inspections

Paper and fibre cartons	2
Clinical thermometers	2
Markings of bread	4
Food packages	2
Retests of gasoline pumps after sealing	2

The total receipts for the department were \$94.60.

Respectfully submitted,

CARL M. SMITH, Sealer

REPORT OF THE DOG OFFICER

December 31, 1955

To the Honorable Board of Selectmen
Town of Reading, Mass.
Gentlemen:

I hereby submit my report as Dog Officer for the year 1955.

I have canvassed the town to see that all dogs have been licensed.
All complaints have been investigated.

For the year ending December 31, 1955 there were 57 unlicensed dogs caught.

42 dogs were disposed of for the county.

10 dogs were reclaimed by owners.

6 dogs were sold for the county.

Dead animals picked up off the street for the Board of Health and disposed of were 95.

At this time I wish to thank the Police Department and all others who gave me assistance.

Respectfully submitted,

WILLIAM H. DEWSNAP

Dog Officer

REPORT OF THE TREE WARDEN

To the Citizens of Reading:

I submit my report as Tree Warden for 1955.

The department planted one hundred and eighty-five trees. One hundred and forty-one Sugar Maples, forty-three Norway Maples and one Pin Oak. The majority of these trees were planted on private property adjacent to the sidewalk. This is better for the root system and it also allows the top to grow with a minimum of interference with the electric light and telephone wires.

It was necessary to remove seventy-four trees from the roadside. Two were removed after hearings to clear driveways, fifteen were destroyed by gas leaks and most of the remaining fifty-seven were removed because of hurricane damage. In addition, thirty diseased Elms were removed from the roadside by the Moth Department under the Dutch Elm Disease program.

The Board of Public Works removed many of these stumps with their gas shovel. This method is not only much faster and cheaper, but it also does a more thorough job on the root system.

I take this opportunity to thank the Board of Public Works and all other town departments who have assisted me in the past year. I also wish to express my appreciation to the men of this department.

Respectfully submitted,

MAURICE H. DONEGAN, Tree Warden

REPORT OF THE MOTH SUPERINTENDENT

To the Honorable Board of Selectmen

Gentlemen:

I submit my report as Moth Superintendent for 1955.

There does not appear to be a heavy infestation of Gypsy Moth in any part of the town. Spraying with D.D.T. is very successful in the control of this pest.

During the week of May 7th, all the Elm trees on town property were given a dormant spray by the Helicopter. This spray is to assist in the control of Dutch Elm Disease. Approximately three hundred Elms were checked for this disease. Cuttings from two hundred and five of these trees were sent to the University of Massachusetts Shade Tree Laboratory at Amherst to be cultured. One hundred and thirty-one were certified as having the disease. Thirty of these diseased trees were on the roadside, one on the Library property, one in Memorial Park, three on the State Highway and the remaining ninety-six trees were on private property. All but twelve of these trees have been removed and burned.

The Japanese Beetle continues to increase throughout the town. Spraying with a strong solution of Clordane or D.D.T. will control the beetles for a few days. The University of Massachusetts, through its County Services, is endeavoring to interest Garden Clubs and other groups in the distribution of Milky Disease spores. This disease attacks the Japanese Beetle grubs.

Respectfully submitted,

MAURICE H. DONEGAN,

Moth Superintendent
